

Little Rock Water Reclamation Authority

Hauled Liquid Waste Truck/Tanker Registration Form

All trucks that will be used by your facility to deliver domestic septage, landfill leachate, or mobile pressure wash wastewater to the Adams Field Water Reclamation Facility will need to be registered with Little Rock Water Reclamation Authority (LRWRA). Failure to register all trucks will result in a suspension of privileges for the trucks/tankers not registered.

Please submit the license plate number for each truck and/or tanker that will be used to deliver approved hauled liquid waste to the Adams Field Water Reclamation Facility in the table below. This form must be submitted to LRWRA in the enclosed envelope with your fees payment and is due by the invoice due date.

Truck/Tanker License Plate Number	Tank Volume

Company Name: _____

Primary Contact: _____

Signature: _____ Date: _____

Finance and Accounting: Please provide returned forms to the Environmental Affairs Department, Mikel Murders.
