Report On Internal Control Over Financial Reporting and On Compliance and Other Matters Based on an Audit of the Financial Statements in Accordance With <i>Government Auditing Standards</i>	92
Report on Compliance with Requirements Applicable to Each Major Program and Internal Control Over Compliance Accordance with OMB Circular A-133	93
Schedule of Findings and Questioned Costs In Accordance with OMB Circular A-133 for the Year Ended December 31, 2010	94

INTRODUCTORY SECTION

Little Rock
Wastewater

THIS PAGE INTENTIONALLY LEFT BLANK.

March 15, 2011

To Little Rock Sanitary Sewer Committee,
Little Rock City Board of Directors, and
Little Rock Wastewater Customers

The staff of Little Rock Wastewater (LRW) is proud to present the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2010. State law requires that every general-purpose local government publish a complete set of audited financial statements for each fiscal year. This report is published to fulfill that requirement for the fiscal year ended December 31, 2010. Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with LRW. This CAFR was prepared by the Finance Division of LRW with the help of Cobb and Suskie, Ltd.

The CAFR is management's representation of the finances of LRW. Management assumes full responsibility for the completeness and reliability of all the information presented in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal controls should not outweigh their benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement.

LRW's financial statements have been audited by Cobb and Suskie, Ltd., a firm of licensed certified public accountants. Cobb and Suskie has issued an unqualified (clean) opinion on LRW's financial statements for the year ended December 31, 2010. The independent auditors' report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The 1933 Arkansas General Assembly enacted Act 132, authorizing all cities and towns in the state to levy user charges against property owners "to construct, own, equip, operate, maintain, and improve" sewage collection and treatment systems. In June 1935, a full-fledged Sanitary Sewer Committee was named and the City of Little Rock Sanitary Sewer System was created. The now five-member Little Rock Sanitary Sewer Committee (LRSSC) manages and controls the city's sewer system. The LRSSC and LRW must seek approval of all sewer rate increases and long term financing through the City of Little Rock Board of Directors. The City of Little Rock Board of Directors appoints LRSSC members. The LRSSC in turn hires a Chief Executive Officer. The LRSSC meets on the third Wednesday of each month.

LRW provides wastewater service to its customers. For financial reporting purposes, LRW is considered a component unit of the City of Little Rock, Arkansas. The LRSSC operates and manages LRW with the City of Little Rock having the power to impose its will on LRW. LRW adopts an annual operating, capital, and debt service budget along with associated rates and fees for services; and also issues updates to its Rules and Regulations. LRW recovers the cost of providing wastewater services primarily through user charges and collects a 10.0% Franchise Fee for the City of Little Rock.

The LRSSC is required to adopt a final budget by no later than the close of the fiscal year. This annual operating and capital budget serves as the foundation for LRW's financial planning and control. The budget is submitted by each department, consolidated and prepared by the Finance Division, and reviewed by the budget sub-committee before final approval from the LRSSC. Each month, financials are presented to the LRSSC to show that operations are being conducted according to management's intentions.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment with which the LRW operates.

Local Economy - The City of Little Rock currently enjoys a favorable economic environment and local indicators point to continued stability. The City of Little Rock is the capital and largest city of Arkansas as well as the governmental, economic, cultural, and financial center of the state. The city and surrounding communities have a mix of industry – state government, centralized health-care centers serving the state, a financial sector, information sector, and a variety of other sectors that are not cyclical. Moody's Investment Service has named Little Rock the second most diverse economy in America. Forbes magazine ranked Little Rock 22st out of 200 metropolitan areas on its list of the best places in America for business or careers. In 2009, the Little Rock-North Little Rock-Conway MSA ranked 4th strongest out of 40 by BusinessWeek.com while Brookings Institution MetroMonitor ranked Little Rock as the fourth strongest economy in America and the Wall Street Journal ranked it sixth best real estate market.

The customer base has continued to grow but at a slower pace from previous years for the residential and commercial users of the Sewer System. The number of residential customer accounts has increased by 7.25% over the past ten years while commercial users have increased by 10.00% over the same time period. The overall growth of total customer accounts for the ten year period is 7.64%, a decrease of .53% from the 2009 audit.

Long-Term Financial Planning – In 2000, the LRSSC and LRW contracted with an engineering firm to evaluate LRW's sewer system capacity. The resulting report titled System Evaluation and Capacity Assurance Plan (SECAP) was finalized in 2002. The report recommended implementing a \$171,000,000 capacity-related capital improvement program over a 15 year time period, 2003-2017. The recommended capital improvement program was incorporated into a Settlement Agreement between the LRSSC and the Sierra Club. After

LRSSC authorized the SECAP, the Sierra Club filed a Complaint in Federal Court concerning non-capacity and capacity related sanitary sewer overflows. The aforementioned Settlement Agreement mandates LRW meet specific overflow performance standards. For non-capacity sanitary sewer overflows, the performance requirement of six per one-hundred miles of owned and operated sewer lines must be satisfied two (2) consecutive years before 2008. For capacity related overflows, the performance requirement is no overflows unless precipitation amounts are extremely heavy (two-year return frequency); the deadline for this performance level is 2017.

Since the lawsuit, LRW has stayed on a timeline to meet the CAO requirements. In 2009, LRW contracted with RJN Engineering Group to re-evaluate the wastewater system and performed a SECAP update. This update was completed in November 2010 and presented to the LRSSC in December 2010.

With the lawsuit and the updated SECAP being the driving force behind capital improvements, the strategic capital operating plan schedules projects using a five-year capital budget outlook that will consist of the following major construction projects:

Little Maumelle Wastewater Treatment Facility

A new treatment facility is needed to serve existing customers and future growth in the Little Maumelle River Basin. The pump station that currently serves the area overloads gravity sewers in Murray Park during wet weather, resulting in numerous overflows. In 2006, Camp Dresser and McKee commenced preliminary design of the treatment facility and associated improvements. This year included cash outflows in the amount of \$25.3 million for the completion of the construction of the facility, pump station, and conveyance. In 2007 LRW received a State and Tribal Assistance Grant (STAG) in the amount of \$477,900 for partial funding of design costs associated with this project. The remaining cost of this project is funded the 2007C and 2008A Sewer Revenue Bond issues. Construction was substantially completed at the end of 2010 and start up of this facility is scheduled to begin in mid-year of 2011. It is estimated that the total project will cost \$80.3 million.

Peak Flow Attenuation Facilities

The purpose of this project is to improve the hydraulic capacity of the collection system during wet weather events and address wet weather overflows in the western end of the Fourche Creek Bottoms. The project consists of a 50 MGD pump station, 12,000 l.f. of 48-inch force main, two diversion structures, and a 30 million gallon storage facility. The detention basins will store volumes of water generated by wet weather events and discharge into the collection system when flows return to normal. These facilities were placed in service mid-year 2009. The Arch Street Pump Station rehabilitation and hydraulic upgrade project is also included with the Peak Flow Attenuation Facilities project. These projects complement each other in that they both enhance the hydraulic conveyance capacity of the interceptor system through the Fourche Creek Bottoms, thereby reducing sanitary sewer overflows during wet weather events. The Arch Street project will increase the capacity of the station by 7 million gallons per day. To assure continuous service to the Fourche Creek Wastewater Treatment Facility, a 30-inch redundant force main will also be included in this project. The redundant force main will also be employed during peak hydraulic flows from the Arch Street Pump Station to the Fourche Creek Wastewater Treatment Facility. The existing 42-inch force main was not designed to withstand the increased pressures which will be created from the pump station hydraulic upgrade. Both the Arch Street Pump Station project and the redundant force main were close to completion in 2010. This project is being funded by the 2007A and 2008A Sewer Revenue Bond issues and Revolving Loan (RLF) 9. It is estimated that the total project will cost \$54.4 million.

Fourche Creek Treatment Facility Hydraulic Upgrade

The hydraulic upgrade of the Arch Street Pump Station from 38 MGD to 45 MGD will necessitate the hydraulic upgrade of the Fourche Creek Wastewater Treatment Facility to a minimum of 45 MGD. An assessment of future flows to the facility will be conducted as part of this project to see if the minimum hydraulic capacity will need to be greater than 45 MGD. The 2010 budget allocated \$16,538,500 for the commencement of construction of the disinfection and secondary clarification process. The five-year forecast includes an additional \$6,762,400 for the completion of the third phase of this project. Total cost through December 31, 2010 is estimated at \$15.1 million. This project is being funded from proceeds of the 2007A, 2007C, and 2008A Sewer Revenue Bond issues.

Collection System Rehabilitation Capacity Assurance Projects

Collection system rehabilitation and capacity assurance projects scheduled over the next five years include a majority of projects that have been extracted from the 15-year capital improvement plan outlined in the SECAP report. The 5-year forecast includes over \$76.1 million for collection system rehabilitation and capacity assurance projects. Projects currently funded by an \$18,000,000 State Revolving Loan (RLF 8) acquired in 2007 will be completed in 2011. These projects include Jimmerson Creek OMP, Upper Hinson Outfall, Allsop South OMP, Barton OMP, Jimmerson West Outfall, and the Infiltration/Inflow Analysis.

There are 10 projects currently in design that will be funded with a Sewer Revenue Bond to be issued in 2012 for approximately \$58.1 million providing LRW has a rate increase in 2012. The following projects will be constructed with funding from the 2012 bond issue: Allsop

North/Country Club Rehabilitation, Echo Valley OMP, Pleasant Valley OMP, Allsop Park Outfall, and Country Club Outfall.

The remaining projects identified in the five (5) year forecast will be funded through a series of projected Sewer Revenue Bond Issues in 2013 totaling \$17.8 million.

Trenchless Sewer Line Rehabilitation

Trenchless sewer line rehabilitation is for the renewal of structurally deteriorated line segments that contribute to non-capacity overflows. Trenchless methods include Cured in Place Pipe (CIPP) and Pipe Bursting. Sewer line segments are identified through Sewer System Overflow (SSO) follow-up inspections and routine collection system inspections by LRW crews. The line segments slated for trenchless rehabilitation are typically located in areas where replacement by reconstruction is costly due to site restrictions. Lines identified by LRW as needing rehabilitation are added to the GLES (General Engineering Study) list of projects. Each line segment is evaluated and a ranking value is assigned based on criteria established by LRW. Utilizing the GLES list and ranking system, line segments are scheduled for rehabilitation.

LRW is entering the eighth year of using annual contracts for trenchless rehabilitation of existing sewer lines. For 2010, \$1.5 million had been budgeted for trenchless rehabilitation work. LRW is continuing to see the value and results of the annual maintenance contracts as the number of non-capacity overflows continue to drop as well as the number of emergency calls due to line failures. LRW is projecting that \$500,000 will be needed each year from 2011 to 2013 and \$1.5 million for the years 2014 and 2015 for rehabilitation of sewer lines by trenchless methods as the lines are identified and added to the GLES list.

Cantrell Road Pump Station Upgrade

The Cantrell Road Pump Station was placed in service in 1967. Structurally the facility is in good condition. Mechanically and electrically, the pump station components are in need of replacement. Two (2) bar screens were installed in 1986. Two (2) of the original pumps from 1967 were replaced in 1986. A portion of the switchgear is original while some components were replaced or added in 1986. The station does not have back-up power generation. With portions of the equipment at 43 years old and the remaining at 24 years, the reliability of equipment and availability of replacement parts have and will be an issue. This project, projected at \$7.9 million, calls for the replacement of all mechanical and electrical equipment, and installation of back-up power.

Cantrell Road Pump Station Force Main

The Cantrell Road Pump Station Force Main was placed in service in 1967. Current technology does not allow for the inspection of an active force main. Therefore, the structural condition of the main is unknown. Design life for similar structures can be 50 years. This project calls for the installation of a new force main and the inspection and rehabilitation of the existing force main after the new main is placed in service at a cost of \$3.2 million.

Cantrell Road Pump Station In-Line Storage

This four million gallon in-line storage facility will alleviate overflows generated from wet weather flows in the Jimmerson and Cantrell areas of the City. In addition, this storage facility

will allow the pumping capacity at the Cantrell Road Pump Station to remain the same, which is essential to eliminate further overflows downstream of the pump station along the Riverfront portion of the City. Estimated cost is set at \$14.7 million.

Peak Flow Pump Station – Additional Pump

The Peak Flow Pump Station was designed with an empty pump position so the capacity of the station could be readily increased when storage becomes available. The increased capacity of the station, at an estimate cost of \$1.4 million, will reduce the occurrence of sanitary sewer overflows in the Fourche Creek vicinity with additional storage at either BFI or an additional basin at the Peak Flow Attenuation Facility.

Adams Field and Mabelvale Pike Storage

These peak flow storage basins are interconnected with the entire service area of LRW. The trunk system of sanitary sewer lines are dependent on one another and the storage volumes and locations are vital in eliminating large overflows that occur within the trunk system. These storage options are also much more cost efficient than to up-size a majority of the interceptor network and use those upgrades to store excess wet weather flows. The estimated capital costs are \$73.8 million.

Rock Creek Storage

A 7 million gallon in-line storage facility is essential to store wet weather flows generated along the Rock Creek Interceptor and the west portion of the City. This storage allows for considerable cost savings by not having to upgrade the entire length of sewer that makes up the Rock Creek Interceptor. The estimated capital costs are \$24.6 million.

The Little Rock Wastewater capital strategic plan includes projects from 2011 through 2015 adjusted by an annual inflation allowance of 5%. Net expenditures of approximately \$235.5 million are forecasted to be completed thru 2015.

Strategic Capital Operating Plan

Of that amount over \$11.1 million will be completed by in-house construction, \$15.1 million from revenues, \$1.4 million from current State Revolving Loans, and \$75.7 million from current and proposed revenue bond funds.

Project Funding Comparison

The City of Little Rock approved a rate ordinance on November 28, 2006 for the Little Rock Sanitary Sewer System. This step rate ordinance includes increases of 15% in January 2007, 8% in July 2007, 3% in January 2008, 4% in January 2009, and 5% in January 2010. In 2008 LRW contracted with Raftelis Financial Consultants, Inc. to review and update LRW's ancillary charges; to conduct a feasibility study of alternative system growth charges (System Development Fees); analyze LRW's cost of wastewater collection, treatment and disposal services; recommend adjustments to the wastewater rate structure; and conduct an asset management study of LRW's property, plant, and equipment. MWH Global assisted Raftelis with the asset management elements of this project. The results along with updated Raftelis rate model based on 2011 requirements will be presented to the City of Little Rock Board of Directors in mid-2011. It is estimated that a rate increase of 14% in 2012, 14% in 2013, 9% in 2014 and 9% in 2015 will be need in order to issue new debt and meet daily obligations.

Financial Policies

LRW is accounted for as an Enterprise Fund, which is a proprietary fund. Enterprise Funds are used to account for operations that are financed and operate in a manner similar to private business enterprises. The intent of LRW is that the cost (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. All activities necessary to provide such services are accounted for in this fund, including but not limited to, administration, operations, maintenance, financing and related debt issues, and billing and collection.

Flow of Funds Policy - The flow of funds is established based on parity bond ordinances. The most recent bond ordinance is #20,046. The ordinance states that rates charged for services of the System are fixed by ordinances of the City and all System revenues shall be paid into a special fund designated "Sewer Fund" (or Revenue Fund). The System revenues so deposited in the Revenue Fund are pledged and applied in sequence to: (a) current expenses of maintenance and operations; (b) payment, pro rata, into the bond fund being maintained in connection with the Parity Bonds and any Additional Bonds that require monthly deposits; (c) payment, pro rata, into the bond fund being maintained in connection with the Subordinate Bonds; (d) payment into the Deprecation Fund (3% of System Revenues remaining after disbursement into (a), (b), and (c) from above; (e) any surplus in the Revenue Fund after making all disbursements and providing for all funds described above may be used for any lawful purpose related to the System authorized by the LRSSC.

Sewer Revenue Fund

All gross revenues are deposited into the Revenue Fund as collected. Monies on deposit in the Revenue Fund shall be first used to pay all Operation and Maintenance Expenses. The revenues of the System not actually required to pay Operations and Maintenance Expenses (the "Net Revenues") shall be transferred from the Revenue Fund to the other funds, in the order of priority, in the manner set forth in the Bond Ordinance.

Bond Fund

The following shall be deposited in the Bond Fund:

1. Such amounts, in equal monthly installments, by the 10th of the month following the month of Closing, and on or before the 10th of each month thereafter, as will be sufficient to pay the interest scheduled to come due on the bonds next interest payment date, less any amount already on deposit therein for such purposes derived from the proceeds of the bonds or from any other lawfully available source.
2. Additional sums as necessary to provide for the Trustee's fees and expenses and any arbitrage rebate payment due to be paid to the United States Treasury under Section 148(f) of the code.

Reserve Fund

So long as the funds on deposit in the Reserve Fund created for the benefit of all bonds are equal to the Reserve Fund Requirement, no deposits need to be made to the credit of the Reserve Fund. However, should the Reserve Fund at any time contain less than the Reserve Fund Requirement, then subject and subordinate to making the required deposits to the credit of the Bond Fund, LRW shall transfer from the Net Revenues in the Revenue Fund and deposit to the credit of the Reserve Fund, by the 10th day of each month, such amounts in equal monthly installments to accumulate within at least a 24 month period equal to the Reserve Fund Requirement. The money on deposit in the Reserve Fund may be used to pay the principal of and interest on all bonds at any time there are not sufficient funds on deposit in the Bond Fund for such purpose.

Depreciation Fund

Three percent (3%) of the remaining money in the Revenue Fund at the end of each month after all payments required to be made from the revenue fund have been made and all deficiencies accumulated from prior months have been paid shall continue to be paid to the Depreciation Fund established in connection with the System, and shall be held in and paid out from such fund for the following purposes:

- To be used solely for the purpose of paying the cost of replacement made necessary by the depreciation of the System.

Contributions in Aid of Construction Fund

Any monies that may be received by the LRSSC that shall represent contributions in aid of construction shall be deposited in a separate account at the Depository Bank. Such contributions shall not be considered as part of the gross revenues of the System. Payments from such bank account shall be made only for the purposes for which the contributions were made, including any refunds that may become due to any contributor.

Capital Improvements Budget Policy- A budget will be prepared for all capital expenditures contemplated, including completions of active construction projects, projects and capitalized purchases planned for the succeeding calendar year, and all projects for which a commitment of funds is to be made even though the actual expenditure will not occur in the succeeding year.

This actual budget is used for projecting anticipated capital requirements and becomes a vital element in the LRW Operating Plan.

The initial capital budget will be prepared within each division within LRW, assimilated and reviewed by the Manager of Finance, and submitted for approval of the Manager of Engineering Services and Chief Executive Officer.

Subsequent to the CEO's approval the Capital Budget will be incorporated into the LRW Operating Plan and submitted to the LRSSC for approval.

Upon approval, all proposed expenditures included in the Capital Budget will be classified as "Planned Expenditures." Any capital expenditure proposed during the course of the plan year which are not included in the approved capital budget, will be classified as "Unplanned Expenditures."

Expenditures equal to or greater than \$5,000 on construction projects or purchases of new equipment are hereby defined as capital expenditures. Expenditures equal to or greater than \$5,000 on work, equipment parts, or a combination of the two, that add discernible life to an existing depreciated asset are also defined capital expenditures. In general, expenses associated with additions, replacements, reconstructions, improvements, or betterments qualify as capital expenditures.

Due to state procurement laws and the nature of capital improvement expenditures, it generally takes more than one (1) fiscal year to complete most capital improvement projects. Therefore many projects carry over from year to year before they are completed and placed into service. LRW does not award a project contract unless it is fully funded. However, many large projects have multiple year and/or multiple phase construction periods. LRW uses several benchmarks of efficiency to ensure capital budget integrity. These include timely completion clauses, aggressive efforts to minimize change orders, and tracking the progress of the overall Capital Improvement Plan (CIP).

The following is a typical schedule for the development of a CIP and an O&M budget:

- January 1 – fiscal year begins.
- July and August – division heads formulate their requests for Operation and Maintenance (O&M) budgets as well as their capital budget requests for the upcoming budget year and the consecutive four years.
- September and October – department supervisors submit their budget requests, which are then combined into the first draft of the overall LRW budget. The Finance staff is responsible for combining them for each department's O&M and capital requests, budget revenues, and other expenditures.
- October and November – the CEO, division managers, and directors review the submitted budgets and establish priorities based on need and availability of funds. Any changes resulting from the management reviews are made at that time.
- November – one or more members of the LRSSC, serving as the Budget Subcommittee, review the budget document with LRW staff. Any revisions resulting from the Budget Subcommittee's review are made at that time. The budget is presented at the regularly scheduled November or December LRSSC meeting. The budget for the coming year is considered for approval of that time.

Budget Amendment Policy - Operating or capital budget line item transfers are done on a memorandum basis, submitted by the requesting manager to Finance. The transfer is subject to approval by management but does not need approval by the LRSSC. Emergency funding authorizations and amendments to the approved operating or capital budgets can only be done with approval by the LRSSC.

Revenue Policy - Ordinance No. 19,647 also requires that the LRSSC maintain rates sufficient to produce or yield revenues to produce in each fiscal year an amount adequate to pay all expenses incurred for the operations and maintenance of the System as such expenses shall accrue during the year and to produce an additional amount equal to 120% of the aggregate amount required to be paid in such year for principal and interest and redemption premiums on bonds payable from the Bonds Funds. Another financial target that is used in preparing the five-year financial plan is maintaining a 90-day operating reserve fund balance.

LRW is a component unit of the City of Little Rock and operates as an autonomous enterprise fund. Enterprise funds are used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the governing body is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. All activities necessary to provide such services are accounted for in this fund, including (but not limited to) administration, operations, maintenance, financing and related debt service, and billing and collection. Because LRW operates in a proprietary manner, the major revenue sources are user charges for wastewater services. LRW's revenue requirements are based on cost of service. This includes operating costs, expenditures for capital improvements, and repayment of debt. The description and figures of the revenue sources are covered in the financial overview section of this budget.

Investment Policy - LRW also has an Investment Policy outlined in the bond ordinances that state available monies shall be invested and reinvested at the direction of the LRSSC in Eligible Investments. Those Eligible Investments shall be subject to redemption not later than seven (7) years after the date of investment. The primary objectives of the investment policy are 1) preservation of capital; 2) safety of LRW funds; 3) maintenance of sufficient liquidity; 4) maximization of return within acceptable risk constraints; and 5) diversification of investments. The investment policy requires an annual review and adoption of its investment policy and strategies.

"Eligible Investments" means any of the securities that are at the time legal for investment of City funds pursuant to Resolution No. 10,609 of the City and Arkansas Code Annotated (2007 Supp.) 14-58-309, as each may be amended from time to time. "Eligible Investments" include:

1. U.S. government obligations, U.S. government agency obligations, and U.S. government instrumentality obligations, which have a liquid market with a readily determinable market value;
2. Money market mutual funds regulated by the Securities and Exchange Commission and whose portfolios consist only of dollar-denominated securities.

Debt Service Policy - Planned rate increases on a consistent basis are programmed in the Financial Plan, and are mainly driven by the capital improvement program and debt service coverage required both by the revenue bond covenants and by the LRSSC benchmarks for financial management. The parity revenue bond covenants require debt service coverage of

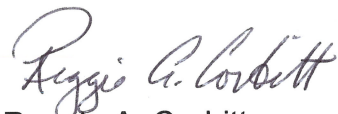

1.2 times (meaning 120% of the current year's debt service requirements must be available that fiscal year). LRW does not have a legal debt limit.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Little Rock Wastewater, Little Rock, Arkansas for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2009. This was the sixth year in a row that LRW has received this prestigious award. In order to be awarded a Certificate of Achievement, LRW had to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one (1) year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the LRW Finance Division.

Respectfully submitted,

Reggie A. Corbitt
Chief Executive Officer

James A. Barham
Manager of Finance

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Little Rock Wastewater Arkansas

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Independent Auditors' Report

The Members of the Little Rock
Sanitary Sewer Committee
Little Rock, Arkansas

We have audited the accompanying financial statements of the business-type activities of Little Rock Wastewater (LRW), a component unit of the City of Little Rock, Arkansas, as of and for the years ended December 31, 2010 and 2009, which collectively comprise Little Rock Wastewater's basic financial statements as listed in the table of contents. These financial statements are the responsibility of LRW's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Little Rock Wastewater as of December 31, 2010 and 2009, and the respective changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 11, 2011, on our consideration of the LRW's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the budgetary information on pages 19 through 27 and 53, respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Members of the Little Rock
Sanitary Sewer Committee
Page Two

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise Little Rock Wastewater's basic financial statements. The introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying information in the statistical section as listed in the table of contents has not been subjected to the procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it. The accompanying supplementary information included in the schedules of budgetary comparison, operating expenses, and debt service requirements are prepared for the purpose of additional analysis and are not a requirement of the basic financial statements. The schedule of expenditures of federal awards is prepared for purposes of additional analysis, as required by U.S. Office of Management and Budget Circular A-133 "Audits of State, Local Governments, and Non-Profit Organizations," and is also not a required part of the basic financial statements of Little Rock Wastewater. Such supplementary information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT’S DISCUSSION AND ANALYSIS

As management of Little Rock Wastewater (LRW), we offer readers of LRW’s financial statements this narrative overview and analysis of the financial activities of LRW for the fiscal year ended December 31, 2010. We encourage readers to consider the information presented here in conjunction with additional information that is provided in our letter of transmittal, which can be found on pages 3 through 13 of this report. The comprehensive annual financial report is made available via the Internet (www.lrwu.com). The use of the Internet is consistent with LRW’s objective to provide greater information to the public in a more efficient manner, reducing paperwork, labor, and communication costs.

Financial Highlights

- Little Rock Wastewater implemented the fifth and final phase of a rate increase, 5%, on January 1, 2010 from a rate ordinance passed by the City of Little Rock Board of Directors in November 2006. Phases one and two, 15% and 8%, were implemented in 2007. The third phase, 3%, started on January 1, 2008 and the fourth phase, 4%, started on January 1, 2009.
- Total assets at year-end were \$429.6 million and exceeded liabilities in the amount of \$271.9 million. Total net assets were \$157.7 million, an increase of 1.2% from 2009 and an increase of 1.8% from 2008.
- Operating revenue increased to \$42.0 million in 2010. This was an increase of 5.6% or \$2.2 million from 2009 and a increase of 0.5% as compared to the 2010 budget projections.
- Operating expenses, before depreciation, decreased by \$126,686 or 0.5%, compared to fiscal year 2009 and a decrease of \$420,631 from 2008. Operating expenses, increased by \$715,060 or 2.4% from 2009, which includes depreciation.
- Debt service coverage was 1.23, which exceeds the 1.20 required by the Bond Covenant. In the Statistical Data Section, Schedule 10 – Pledged-Revenue Coverage provides more information on debt service coverage.

General Trends

LRW’s customer accounts increased from 2009 by 167 or .25%. Over a ten year period, the customer growth rate averaged 0.8%.

Wastewater Customers	2010	2009	2008
Beginning Customer Accounts	67,455	67,628	67,033
Additional Accounts (net)	167	(173)	595
Ending Customer Accounts	67,622	67,455	67,628

LRW began its 5-phase rate adjustment that was approved by the City of Little Rock Board of Directors on November 28, 2006. The first and second phase started in 2007 with rate increases of 15% on January 1 and 8% on July 1. The third phase started on January 1, 2008 for a 3% increase and the fourth phase of 4% began on January 1, 2009. The fifth and final increase of 5% began on January 1, 2010.

The following chart shows a residential bill based on a consumption of 6 Ccf as of December 31 of each year. These amounts do not include a 10.0% franchise fee that is collected for and paid to the City of Little Rock.

Residential Bill	2010	2009	2008
-------------------------	-------------	-------------	-------------

	\$27.73	\$26.39	\$25.39
--	---------	---------	---------

Little Rock’s wastewater rates remain moderately higher than neighboring utilities. The Little Rock Sanitary Sewer Committee (LRSSC) and LRW have a continual budget plan that allows LRW to project rate adjustments in conjunction with major capital construction and debt issuance.

Little Rock Wastewater System

LRW is regulated by the United States Environmental Protection Agency (EPA) and Arkansas Department of Environmental Quality (ADEQ). These agencies issue permits to LRW for discharge of treated wastewater. Currently, LRW has 31 remote, unattended pumping stations, two secondary treatment plants with another scheduled to become operational in 2011, a peak flow attenuation facility, a maintenance facility, and an administration building. The collection system includes over 124 square miles containing approximately 1,320 miles of sewer lines. LRW has received awards from the EPA and the Association of Metropolitan Sewerage Agencies (AMSA). LRW’s two wastewater treatment plants have been awarded the AMSA Gold award for 100% Permit Compliance for the years 1999-2000. A list of all awards can be viewed on LRW’s website.

The Adams Field Wastewater Treatment Facility has been in operation since 1961 and was Little Rock's first wastewater treatment Facility. The facility was put into operation at a cost of \$3.5 million and was only equipped with primary treatment. Secondary treatment facilities were added in the early 1970’s at a cost of \$6.2 million. Upgrade construction over the past three (3) years at a cost of \$27.5 million was completed in 2007. The construction consisted of upgrading the primary clarifiers for peak flow and building an equalization basin to hold up to 14 million gallons. The plant has a new Hydraulic Peak Capacity with the maximum capacity consisting of 94 Million Gallons per Day (MGD). The plant is a complete-mix activated sludge plant, serving approximately 70% of the City of Little Rock, and is a two-stage secondary treatment plant, designed to reduce the pollutant load by approximately 90% through a combination of physical and biological processes. Starting in 2007, this treatment facility added the Ultra-Violet disinfection process.

The Fourche Creek Wastewater Treatment Facility has been providing wastewater treatment to the Fourche Creek Valley since 1983, when it was placed in service at a cost of \$19.6 million. The step-feed activated sludge section was brought on line in 1989 at a cost of \$9 million. The Fourche Creek is also a two-stage, or secondary treatment facility. It has an installed treatment capacity of 16 MGD, or a population equivalent of 120,000 persons. The plant's annual average dry weather influent sewage flow is 12 MGD. This treatment plant is currently in the construction stages of being upgraded to accommodate higher peak wet weather flows from the original 36 MGD to approximately 55 MGD in an effort to further mitigate collection system surcharging.

The Little Maumelle Wastewater Treatment Facility is in the final stages of construction. The land site was selected in April 2005 and purchased in December 2005. This activated sludge treatment plant of 4 MGD that can be expanded to 16 MGD is expected to cost \$79.2 million for land, engineering, construction, administration expenses, and contingencies. Construction is scheduled to be substantially complete at the end of 2010 and fully operational by the middle of 2011.

The Peak Flow Attenuation Facility was placed in service mid-year of 2009 to help improve the hydraulic capacity of the collection system during wet weather events and address wet weather overflows in the western end of the Fourche Creek Bottoms. This project consists of a 50 MDG pump station, 12,000 l.f. of 48-inch force main, two (2) diversion structures, and a 30 million gallon storage facility. This along with an associated project, Arch Street Pump Station rehabilitation and hydraulic upgrade project to be completed in 2011, will cost \$54.5 million dollars. It is designed to handle a storm where five (5) inches of rain would fall within 48 hours, which is also referred to as a 'peak flow event'.

The Clearwater Maintenance Facility is the operations/maintenance complex on a 36 acre tract that was built in 1989. LRW jointly owns the building with Central Arkansas Water and the two (2) utilities operate a Fleet Maintenance Department together for the maintenance and repair of vehicles and equipment. About 100 LRW employees in the Maintenance Division work from this facility, making it the home base for the majority of LRW work force.

The Clearwater Administration Building was built in 2005 and is located near the Clearwater Maintenance Facility. The CEO, Division Managers, Engineering, Information Services, Accounting, Human Resources, Safety, and Purchasing are all located in the administrative building. This building is also the location for the monthly sewer committee meetings.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to LRW's basic financial statements. LRW's basic financial statements are: 1) Balance Sheet, 2) Statement of Revenues, Expenses, and Changes in Net Assets, and 3) Statement of Cash Flows.

The Balance Sheet presents information on all of LRW's assets and liabilities, with the difference between the two (2) reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of LRW is improving or deteriorating.

The Statement of Revenues, Expenses, and Changes in Net Assets reflect the results of the business activities over the course of the most recent fiscal year and information as to how the net assets changed during the year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

The Statement of Cash Flow presents changes in cash and cash equivalents, resulting from operational financing and investing activities. This statement presents cash receipts and cash disbursement information, without consideration of the earnings event, when an obligation arises, or depreciation of capital assets.

Fiscal Year 2008-2010 Financial Information

Balance Sheet

Total Assets decreased by \$3.0 million from 2009 but increased by \$15.4 million from 2008, as a result of a five (5) phase rate increase plan, a Revolving Fund Loan in 2009, and one (1) small revenue bond issue in 2009. Current Assets show a decrease of 11.9% from 2009. This was due to on-going major construction projects that began in 2007. These projects are at or close to completion resulting in a reduction in Cash and Cash Equivalents at December 31, 2010.

Noncurrent Assets shows no change as a whole and remained virtually the same at \$407.2 million for both 2010 and 2009, but there were some significant changes in the line item categories. One of the major categories was the reduction of investments due to the expenditures on construction costs for infrastructure. Restricted for Construction and Improvements Investments reduced from \$48.5 million in 2009 to \$7.8 million in 2010. While in the same major category of Noncurrent Assets; the Construction Work in Progress line item increased from \$130.1 million in 2009 to \$168.9 million in 2010. The Accumulated Depreciation category increased by \$7.6 million, from \$101.0 million to \$108.6 million and will show larger increases over the next few years as large capital projects move from the Construction Work in Progress to Capital Assets being Depreciated line item.

Current Liabilities showed a decrease of 24.9% or \$5.5 million. The major change from 2009 to 2010 was a decrease of Construction Contract Payable in the amount of \$5.9 million. The major change from 2008 to 2009 was also an increase in Construction Contract Payable in the amount of \$5.7 million. Noncurrent Liabilities showed a slight increase of 0.8% or \$0.7 million for 2010. There were no new bond/loan issues for 2010. LRW's bond information can be found in Note 7 on page 40. Total Liabilities decreased by \$4.8 million for 2010.

Total Net Assets had an increase of 1.2% while Total Liabilities and Net Assets showed a decrease of 0.7% in 2010. While Restricted Assets decreased by 5.0% from 2009, the Unrestricted Assets increased slightly by 0.1%. Unrestricted increased by 386.6%% or \$2.4 million. Additional information can be found in Note 5 on page 39 and schedule 1 on page 76 of this report.

Statement of Revenues, Expenses, and Changes in Net Assets

Operating revenue falls into three (3) general categories: assessments levied, industrial surcharge, and other fees and income. Assessments levied are monthly residential/commercial service charge billings. Industrial surcharge consist of fees based on wastewaters having excessive Biochemical Oxygen Demand (BOD), Total Suspended Solids (TSS), Oil and Grease (O&G), Chemical Oxygen Demand (COD), or pH discharge. Other fees and income are permit fees, connection fees, inspection fees, sewer dump permits, and co-generation revenue. Non-Operating revenue consists of interest income from investments and cash, and cash equivalent accounts, along with gain on disposal of property, unrealized gain on investments, and miscellaneous income.

The Total Revenue increased from 2010 to 2009 by \$1.8 million or 4.3%. The sewer rates were increased by 4% on January 1, 2009 and 5% on January 1, 2010. Assessments Levied had a 4.2% increase from 2009 but was below projects by 0.7% as a result of declining residential and commercial usage. Industrial Surcharge increased by 90.4% or \$0.8 million while Other Fees and Income decreased by 22.3%. Non-Operating Revenue showed a decrease of 45.8% which is reflected in interest earned and unrealized gain on investments. With the construction of several large projects, LRW's funds available for investment has decreased resulting in decreased interest earned plus interest rates have remained below 1% for most investments. Interest income has decreased by \$1.5 million or 91.1% from 2009. This number is expected to decrease over the next few years as the bond monies are spent for construction of infrastructure unless more new debt is issued.

Operating Expenses are divided into departments within LRW. Each department tracks its expenses based on the following breakdown: salaries, benefits, supplies, contract services, vehicle maintenance, utilities, insurance, and training and administration. Non-Operating Expenses are made up of interest expense, amortization of bond issuance costs, loss on disposal of capital assets, unrestricted loss on investments, and miscellaneous.

Total Expense increased by \$0.8 million in 2010. Operating Expense decreased by 0.5% or \$127,000. The staff at LRW made a unified effort to reduce personnel and costs but yet provide the citizens of Little Rock a great service in every department within LRW. One of those cost-cutting measures was the eliminating of 6 positions in 2010 through retirement and reorganization.

Non-Operating Expense had an increase of 0.9% in 2010 along with an increase in Interest Expense that totaled \$0.2 million. This number is expected to grow over the next few years due to needed bond issues to fund capital improvements required to meet demands set forth in Consent Administration Order (CAO) in eliminating sewer overflows.

Change in Net Assets represents an increase of \$0.8 million or 85.5% from 2009 and the change in the ending total net assets of \$1.8 million from last year shows a 1.2% growth.

Additional information can be found on the Statement of Revenues, Expenses, and Changes in Net Assets on page 30 and Schedule of Operating Expenses by Department on page 55.

	2010	Percent Change	2009	Percent Change	2008
<u>Revenues:</u>					
Operating Revenues:					
Assessments Levied	\$ 39,788,224	4.2%	\$ 38,199,675	1.4%	\$ 37,658,159

Capital Assets and Debt Administration

The cash outflow for LRW on wastewater system capital improvements was \$50.8 million in fiscal year 2010. The major construction project dollars spent on improvements include the Little Maumelle Wastewater Treatment Facility at \$25.3 million, Fourche Creek Hydraulic Upgrade at \$11 million, Peak Flow Attenuation Facilities at \$9 million, and Collection System Overflow Mitigation projects at \$3.5 million. The remaining classifications of new sewer mains, replacement sewer mains, sewer pumping and treatment facilities, transportation, and general plant make up the remaining \$2.0 million spent on capital assets. Additional information on LRW's capital assets can be found in Note 5 on page 39 of this report.

Usually LRW has a three (3) year period to draw on the loans up to the designated amounts but LRW received an extension on the 2007B for one (1) year. The payment of principal and interest began on April 15, 2010 for the 2007B loan. The payment of principal and interest on the 2009A will begin when the project is completed or when the three (3) year window is reached, whichever comes first. LRW did not issue any new debt in the year 2010. The total long-term debt (less bond payable within one year) increased by \$0.8 million in 2010.

Moody's Investors Service assigned an Aa3 rating on the City of Little Rock (AR) Sewer Revenue Bonds.

Long-Term Debt	2010	2009	2008
1990 Sewer Revenue	\$ 1,656,119	\$ 2,088,637	\$ 2,504,359
1991 Sewer Revenue	1,419,531	1,790,259	2,146,593
1996 Sewer Revenue	3,062,513	3,366,974	3,661,056
1999 Sewer Revenue	8,232,246	8,766,681	9,281,621
2001 Sewer Revenue	18,600,000	19,040,000	19,465,000
2004A Sewer Revenue	20,052,989	20,958,921	21,836,114
2004B Sewer Revenue	12,430,067	12,970,335	13,493,466
2004C Sewer Revenue	12,043,885	12,529,648	12,062,175
2005 Sewer Revenue	8,160,000	8,550,000	8,930,000
2007A Sewer Revenue	59,770,000	60,905,000	62,000,000
2007B Sewer Revenue	16,420,775	13,796,147	5,993,094
2007C Sewer Revenue	71,085,000	71,085,000	71,085,000
2008 Sewer Revenue	15,495,000	15,760,000	16,000,000
2009A Sewer Revenue	6,499,118	2,371,794	-
2009B Sewer Revenue	6,530,000	6,655,000	-
Less Debt Payable, due within one year	<u>\$ (6,855,607)</u>	<u>\$ (6,821,384)</u>	<u>\$ (5,591,753)</u>
Total Long-Term Debt	<u>\$ 254,601,636</u>	<u>\$ 253,813,012</u>	<u>\$ 242,866,725</u>

Additional information on LRW's long-term debt can be found in Note 7 on page 40 of this report.

Economic Factors and Next Year's Budget and Rates

LRW believes that the customer base for its services will continue to grow at a slow pace of less than 1.0%. With the current economical situation, LRW believes that revenue will maintain steady year over year. There is not one major customer that is over 2% of the total revenues (see schedule 12 – Ten Largest Customers). In order for LRW to meet obligations and timelines for capacity and non-capacity overflow litigation, there were several major projects in design or under construction in 2010. The Little Maumelle Wastewater Treatment Facility (projected at \$79.7 million) and the Fourche Creek Treatment Facility Hydraulic Upgrade (projected at \$27.2) have been funded by revenue bond issues. LRW will need to raise additional capital either through new bond issues via the Arkansas Revolving Loan Fund Program or loans/grants from The American Recovery and Reinvestment Act (ARRA) of 2009 for the future projects designated under the CAO and updated SECAP report.

The fifth and final phase of a rate increase was implemented from an approved rate ordinance by the City of Little Rock Board of Directors back in 2006. The 5% increase began on January 1, 2010. LRW has the intention of increasing rates on an annual basis for the years 2012 through 2015. LRW is in the initial talks with city leaders on increasing rates by 14% in 2012, 14% in 2013, 9% in 2014, and 9% in 2015. The need for the rate increase is based on an updated System Evaluation and Capacity Assurance Plan (SECAP) that has projected \$200 million in capital projects in addition to what has already been accomplished in order to meet the Sierra Club Lawsuit and Consent Administrative Order.

In February 2011, Moody's Investors Service downgraded LRW's rating from Aa2 to Aa3 and placed a negative outlook on the underlying rating of the City of Little Rock (AR) Sewer Revenue Bonds based on the challenges of a narrowing reserve level, approximately \$200 million in expected borrowing over the next three (3) years, and a narrow debt service coverage with rate increases necessary to support future debt needs.

With the implementation of GASB Statement 45, LRW has reviewed its health care policies and continues to reduce costs by changing the health care plans. In 2011, LRW changed from a self-funded to a fully-funded health insurance plan that should save LRW \$500,000 annually.

Request for Information

This financial report is designed to provide a general overview of LRW's finances for the rate payers, citizens, city leaders, investors, and creditors. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Manager of Finance, P.O. Box 45090, Little Rock, AR 72214-45090.

SUPPLEMENTAL SCHEDULE OF NONCASH INVESTING AND FINANCING
ACTIVITIES:

During 2010 and 2009, the Utility received donated sewer lines capitalized in the amount of \$1,320,229 and \$1,422,898, respectively.

The accompanying notes are an integral part of these financial statements.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. **Reporting Entity**

The financial statements of the Little Rock Wastewater (LRW), a component unit (Enterprise Fund) of the City of Little Rock, conform to generally accepted accounting principles for state and local governments. The Utility provides sewer services for the greater Little Rock area. These services primarily consist of treatment and disposal of sewer water, inspection of sewer lines, and construction of sewer treatment plants, rehabilitation projects, and spot repairs. The vast majority of the Utility's customers are residential; however, the Utility also services commercial businesses. The Utility had 67,622 and 67,455 customers at December 31, 2010 and 2009, respectively. LRW is financially accountable to the City of Little Rock because the City's Board of Directors must approve any rate adjustments and debt issuances.

B. **Basis of Accounting**

LRW is a proprietary fund of the City and its financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. In accordance with paragraph 7 of Governmental Accounting Standards Board (GASB) Statement No. 20, the Utility applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

As a component unit of the City of Little Rock, LRW has adopted the provisions of Governmental Accounting Standards Board Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments." Statement No. 34 established standards for external financial reporting for all state and local governmental entities, which includes a statement of net assets, a statement of activities and changes in net assets, and a statement of cash flows. It requires the classification of net assets into three components: restricted; invested in capital assets, net of related debt; and unrestricted.

Restricted – Consists of constraints placed on net asset used through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. **Basis of Accounting** (Continued)

Invested in capital assets, net of related debt – Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets

Unrestricted – Consists of net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

As a component unit of the City of Little Rock, LRW applies the provisions of Governmental Accounting Standards Board Statement No. 33, “Accounting and Financial Reporting for Nonexchange Transactions.” This statement requires that capital contributions to LRW be presented as a change in net assets.

LRW’s accounting and financial reporting practices are similar to those used for business enterprises; therefore, the accrual basis of accounting is utilized. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Revenues from assessments levied, industrial surcharges, connection fees, and other sewer fees are reported as operating revenues. Transactions which are capital, financing, or investing related are reported nonoperating revenues. All expenses related to operating the sewer system such as salaries, benefits, supplies, utilities, and administrative costs are reported as operating expenses. Interest expense and financing costs are reported as nonoperating expenses.

C. **Cash and Cash Equivalents**

LRW considers both restricted and unrestricted demand deposits, certificates of deposit, money market funds and cash management pools to be cash equivalents. In addition, all highly liquid investments, including repurchase agreements, with maturities of three months or less from the date of purchase are considered to be cash or cash equivalents.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. **Investments**

Investments are stated at fair value and consist of debt securities with original maturities in excess of three months when purchased. Unrealized gains and losses are included as nonoperating income (expense) in the accompanying statements of income.

E. **Accounts Receivable**

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Details of accounts receivable and the related valuation account as of December 31, 2010 and 2009 are more fully explained in Note 4.

F. **Inventory**

Materials, supplies, and fuel inventories are valued at the lower of average cost or market value.

G. **Restricted Assets**

Restricted assets consist of monies and other resources which are restricted legally as described below:

Bond Requirements – These assets include cash, investments, and accrued interest held in various accounts as required by the bond indentures.

Construction and Improvements – These assets are restricted for designated capital projects and cannot be expended for any other item.

H. **Unamortized Bond Issuance Costs**

Costs associated with the issuance of bonds are capitalized as bond issuance costs and amortized over the life of the related bonds.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. **Capital Assets and Capital Contributions**

Capital Assets consist of property, plant and equipment and include assets which have been contributed to LRW. These assets, consisting primarily of donated sewer lines, are recorded at the donor's cost (which approximates fair market value at the transfer date for those assets). Capital assets are defined by LRW as assets with an initial, individual cost of at least \$5,000 and an estimated useful life in excess of 1 year. Depreciation is computed using the straight-line method of depreciation with estimated useful lives of 10 to 50 years for buildings and improvements, 5 to 25 years for machinery and equipment, and 50 years for collection systems (primarily sewer lines).

J. **Compensated Absences**

Employees earn Personal Time Off (PTO) as the only paid personal leave as it covers time away from the workplace for vacation, personal time, funeral, illness, etc. There are no restrictions on how much PTO can be accrued and no deadline to use the time accrued, but there is a "use or lose" policy for any balance over 300 hours at December 31 of each year. Employees accumulate PTO each pay period based on length of service. The rate of accrual for any given year in the first twelve months is 18 days, one through five years accrue 20 days, six through fifteen years accrue 25 days, sixteen through twenty-five years accrue 30 days, and twenty-five years and up accrue 35 days. Net changes in the liability for compensated absences are summarized in Note 8.

K. **Pension Plan**

The provision for retirement pension costs are recorded when the related payroll is accrued and the obligation is incurred.

L. **Other Post Employment Benefits**

Effective for the year beginning January 1, 2007 the Utility implemented Government Accounting Standards Board Statement No. 45, "Accounting and Financial Reporting by Employees for Post Employment Benefits Other Than Pensions." This statement establishes standards for the measurement, recognition, and display of other post employment benefits (OPEB) expenses and related liabilities. The effect of GASB 45 is more fully explained in Note 12.

M. **Basis of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Reclassifications

Amounts have been reclassified in the 2009 financial statements to conform to the presentation in the 2010 and 2009 comparative financial statements.

NOTE 2: CASH AND CASH EQUIVALENTS

A reconciliation of cash per the statement of cash flows to the balance sheets as of December 31, 2010 and 2009, respectively, follows:

	<u>2010</u>		
	<u>Unrestricted</u>	<u>Restricted</u>	<u>Total</u>
Cash at Beginning of Year	\$ 9,771,485	\$ 9,666,524	\$ 19,438,009
Net Increase (Decrease)	<u>(3,387,796)</u>	<u>(118,858)</u>	<u>(3,506,654)</u>
Cash at End of Year	<u>\$ 6,383,689</u>	<u>\$ 9,547,666</u>	<u>\$ 15,931,355</u>
	<u>2009</u>		
	<u>Unrestricted</u>	<u>Restricted</u>	<u>Total</u>
Cash at Beginning of Year	\$ 14,781,609	\$ 28,287,612	\$ 43,069,221
Net Increase (Decrease)	<u>(5,010,124)</u>	<u>(18,621,088)</u>	<u>(23,631,212)</u>
Cash at End of Year	<u>\$ 9,771,485</u>	<u>\$ 9,666,524</u>	<u>\$ 19,438,009</u>

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Utility's deposit policy for custodial credit risk requires compliance with the provisions of state law. Arkansas law requires collateralization of all municipal deposits by federal depository insurance (FDIC) and qualified pledged securities consisting of obligations of the U.S. Treasury and U.S. agencies.

Included in the Utility's total cash balances of \$15,931,355, and \$19,438,009 (restricted and unrestricted) at December 31, 2010 and 2009, respectively, are deposits with financial institutions of \$16,424,884 at December 31, 2010 and \$20,521,004 at December 31, 2009. These deposits were fully covered by FDIC insurance and appropriate collateralization at these respective dates.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 3: INVESTMENTS

Investments at December 31, 2010 and 2009 consisted of U.S. Government obligations, stated at fair values of \$15,847,949, and \$56,882,649, respectively. Net unrealized gain (loss) for each of the years ended December 31, 2010 and 2009, was \$353,193 and \$(650,101), respectively.

All of the Utility's investments carry the explicit guarantee of the U.S. Government. In accordance with its investment policy the Utility manages its exposure to fair value losses arising from increasing interest rates by purchasing investments with a maturity of five years or less, and it uses weighted average maturity limitations.

Credit risk is the risk that the issuer or other counterparty will not fulfill its obligation. The Utility manages its credit risk by investing exclusively in obligation of the U.S. Government.

All of the Utility's investments at December 31, 2010 and 2009 are insured or registered and held by the Utility or its agent in the Utility's name. Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Utility will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

NOTE 4: ACCOUNTS RECEIVABLE

Accounts receivable at December 31, 2010 and 2009 consisted of the following:

	<u>2010</u>	<u>2009</u>
Trade Receivables, Current	\$ 2,896,549	\$ 2,449,365
Trade Receivables, Past Due	354,704	302,608
Total	<u>3,251,253</u>	<u>2,751,973</u>
Allowance for Uncollectibles, Beginning of Year	(302,608)	(260,819)
Writeoff of Uncollectibles	314,743	273,981
Provision for Bad Debt Expense	<u>(366,839)</u>	<u>(315,770)</u>
Allowance for Uncollectibles, End of Year	<u>(354,704)</u>	<u>(302,608)</u>
Accounts Receivables, Net of Allowance for Uncollectibles	2,896,549	2,449,365
Less Noncurrent Amount	<u>23,762</u>	<u>39,604</u>
Current Accounts Receivable	<u>\$ 2,872,787</u>	<u>\$ 2,409,761</u>

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 5: CAPITAL ASSETS

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 5: CAPITAL ASSETS (CONTINUED)

Construction in Progress at December 31, 2010 and 2009 included capitalized construction period interest of \$109,174 and \$205,120 that was incurred in each respective year.

Depreciation expense was \$7,737,659 and \$6,895,912 for the years ended December 31, 2010 and 2009, respectively.

NOTE 6: CONTRIBUTIONS IN AID OF CONSTRUCTION

Contributions in aid of construction, as a result of acceptance of sewer lines from private contractors and individuals, were \$1,320,229 and \$1,422,898 for the years ended December 31, 2010 and 2009, respectively.

NOTE 7: LONG-TERM DEBT

Long-term debt consists of Sewer Revenue Bonds for which the changes in the years ended December 31, 2010 and 2009 are as follows:

	<u>2010</u>				Amount Due
	Beginning Balance	Increases	Decreases	Ending Balance	Within One Year
Sewer Revenue Bonds	\$ 260,634,401	\$ 7,437,729	\$ 6,614,888	\$ 261,457,242	\$ 6,855,607
Unamortized Bond Premium (Discount)	630,972	-	-	626,808	167,934
	<u>\$ 261,265,373</u>	<u>\$ 7,437,729</u>	<u>\$ 6,614,888</u>	<u>\$ 262,084,050</u>	<u>\$ 7,023,541</u>
	<u>2009</u>				
	Beginning Balance	Increases	Decreases	Ending Balance	Amount Due Within One Year
Sewer Revenue Bonds	\$ 248,458,477	\$ 17,767,672	\$ 5,591,748	\$ 260,634,401	\$ 6,614,886
Unamortized Bond Premium (Discount)	876,421	-	245,449	630,972	206,948
	<u>\$ 249,334,898</u>	<u>\$ 17,767,672</u>	<u>\$ 5,837,197</u>	<u>\$ 261,265,373</u>	<u>\$ 6,821,834</u>

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS

NOTE 7: LONG-TERM DEBT (CONTINUED)

Sewer revenue bonds payable consist of the following:

<u>Series</u>	<u>Interest Rate</u>	<u>Outstanding at Maturity Date</u>	<u>Amount Due</u>	
			<u>December 31, 2010</u>	<u>Within One Year</u>
1990	4.00%	2008 to 2014	\$ 1,656,120	\$ 449,992
1991	4.00%	2008 to 2014	1,419,530	385,707
1996	3.50%	2008 to 2019	3,062,511	315,213
1999	3.75%	2008 to 2022	8,232,248	554,662
2001	4.000% to 5.125%	2008 to 2022	18,600,000	455,000
2004A	3.25%	2008 to 2027	20,052,989	935,614
2004B	3.25%	2008 to 2027	12,430,065	557,972
2004C	3.25%	2008 to 2027	12,043,885	501,679
2005	3.00% to 4.375%	2008 to 2025	8,160,000	405,000
2007A	3.63% to 5.00%	2008 to 2037	59,770,000	1,185,000
2007B	2.75%	2008 to 2029	16,420,775	704,768
2007C	4.25% to 5.00%	2008 to 2037	71,085,000	
2008	3.50% to 5.75%	2008 to 2038	15,495,000	275,000
2009A	2.00%	2008 to 2032	6,499,119	-
2009B	2.00%	2008 to 2039	6,530,000	130,000
Total			<u>\$ 261,457,242</u>	<u>\$ 6,855,607</u>

Payment dates for the revenue bonds are as follows:

<u>Series</u>	<u>Principal and Interest</u>
1990	April 15 and October 15
1991	April 15 and October 15
1996	April 15 and October 15
1999	April 15 and October 15
2001	February 1 and August 1
2004A	April 15 and October 15
2004B	April 15 and October 15
2004C	April 15 and October 15
2005	May 1 and November 1
2007A	June 1 and December 1
2007B	April 15 and October 15
2007C	April 1 and October 1
2008	April 1 and October 1
2009A	April 15 and October 15
2009B	June 1 and December 1

The Arkansas Natural Resource Commission (ANRC) has issued certain revenue bonds, the proceeds of which have been loaned to the City of Little Rock, Arkansas, for the purpose of financing costs of constructing extensions, betterments, and improvements to the sewer system.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 7: LONG-TERM DEBT (CONTINUED)

The City of Little Rock has passed these funds to the Utility for such purpose as follows:

<u>Sewer Revenue Bond Issue</u>	<u>Bond Issue</u>
Series 1990 (December, 1990)	\$ 7,000,000
Series 1991 (April, 1991)	\$ 6,000,000
Series 1996 (January, 1996)	\$ 6,000,000
Series 1999 (July 1999)	\$ 12,000,000
Series 2004A (March, 2004)	\$ 23,100,000
Series 2004B (March 2004)	\$ 14,000,000
Series 2004C (March 2004)	\$ 13,000,000
Series 2007B (February 2007)	\$ 18,000,000
Series 2009A (March 2009)	\$ 8,000,000
Series 2009B (November 2009)	\$ 6,655,000

In October, 2001, the City of Little Rock, Arkansas, issued \$22,680,000 of Sewer Refunding and Construction Revenue Bonds, Series 2001, for the purpose of financing certain costs of constructing extensions, betterments, and improvements to the sewer system and to advance refund the Series 1993 Bonds.

In March, 2004, the City of Little Rock, Arkansas authorized a Sewer Revenue Bond issue of \$23,100,000, \$14,000,000, and \$13,000,000 to be issued by ANRC, for the purpose of financing the costs of constructing extensions, betterments, and improvements to the Adams Field Treatment Plant, the Utility's collection system, and unsewered areas

In May 2005, the City of Little Rock, Arkansas issued \$10,000,000 of Sewer Refunding and Construction Revenue Bonds, Series 2005, for the purpose of financing certain costs of constructing extensions, betterments, and improvements to the sewer system and to pay off the 2004 Short-Term Note.

In May 2007, the City of Little Rock, Arkansas issued \$63,050,000 of Sewer Construction Revenue Bonds (2007A), and in September 2007 it issued \$71,085,000 of Sewer Construction Revenue Bonds (2007C) for the purpose of financing wastewater system capital improvements.

In July, 2007 the City of Little Rock authorized a Sewer Revenue Bond Issue of \$18,000,000 for the remaining unsewered area and collection system projects, and in March 2009, it issued \$8,000,000 in Sewer Revenue Bonds. As of December 31, 2010, the Utility had drawn \$17,106,554 and \$6,499,119, respectively, on these bond issues, with additional draws of \$1,893,446 and \$1,500,881 remaining. These draws, which amount to \$2,394,327 in the aggregate, will be made as the aforementioned construction progresses.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 7: LONG-TERM DEBT (CONTINUED)

In December 2008, the City of Little Rock, Arkansas issued \$16,000,000 of sewer revenue bonds, Series 2008, for the purpose of financing wastewater system capital improvements.

In November, 2009, the City of Little Rock, Arkansas issued \$6,655,000 of sewer revenue bonds (2009B) for the purpose of financing wastewater system capital improvements.

The 1990, 1991, 1996, 1999, 2004A, 2004B, 2004C, 2007B, and 2009A Series Sewer Revenue Bonds are subordinate to the 2001, 2005, 2007A, 2007C, 2008, and 2009B Series Revenue Bonds.

In addition to the \$261,457,242 balance of Sewer Revenue Bonds outstanding at December 31, 2010, an additional \$2,394,327 will, as previously described, be drawn in fulfillment of current bond issues, for a total Sewer Revenue Bond indebtedness of \$263,851,569.

The annual requirements to amortize sewer revenue bond indebtedness outstanding, and scheduled, including interest, as of December 31, 2010, are as follows:

Year Ending December 31,	Principal	Interest	Total
2011	\$ 6,855,607	\$ 11,004,113	\$ 17,859,720
2012	7,250,023	10,840,360	18,090,383
2013	7,679,601	10,657,582	18,337,183
2014	7,952,476	10,372,532	18,325,008
2015	8,257,397	10,073,594	18,330,991
2015 to 2019	46,288,171	45,310,853	91,599,024
2020 to 2024	45,729,696	35,934,165	81,663,861
2025 to 2029	47,802,051	27,272,061	75,074,112
2030 to 2034	57,436,547	15,376,268	72,812,815
2035 to 2039	28,600,000	2,148,898	30,748,898
Total	<u>\$ 263,851,569</u>	<u>\$ 178,990,426</u>	<u>\$ 442,841,995</u>

Interest expense incurred during construction amounted to \$109,174 and \$205,120 all of which was capitalized to construction in progress in the years ended December 31, 2010 and December 31, 2009, respectively.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 8: COMPENSATED ABSENCES

Net changes in the liability for compensated absences for the years ended December 31, 2010 and 2009 are as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>	<u>Amount Due Within One Year</u>
2010	\$ 853,765	\$ 4,309	\$ 207,720	\$ 650,354	\$ 636,391
2009	\$ 976,192	\$ 5,416	\$ 127,843	\$ 853,765	\$ 713,657

NOTE 9: LITIGATION

The Little Rock Sanitary Sewer Committee (LRSSC) was a defendant, along with the City of Little Rock, in a lawsuit filed in the U.S. District Court on January 13, 2000, by the Sierra Club. The plaintiff alleged violations of the Clean Water Act and the Resource Conservation and Recovery Act for sanitary sewer overflows (SSOs), and sought injunctions for the alleged violations as well as penalties. LRSSC and the plaintiff entered into a written settlement agreement releasing LRSSC's liability for any alleged violations up to the settlement agreement dated September 12, 2001.

A judgment approving this settlement was filed on November 16, 2001, subject to an award of the plaintiff's statutory attorneys' fees, which were awarded on December 13, 2002 and paid in full in 2003. There were no further sums due to the plaintiffs in this litigation; accordingly, LRW's financial statements as of December 31, 2010 and 2009, respectively, do not include any provisions of potential liability with regard to this litigation.

However, pursuant to the settlement agreement between the plaintiff and LRSSC, the Court retained jurisdiction for the purpose of enforcing the provisions of the settlement agreement incorporated by reference in the judgment. Under the provisions of the settlement, LRSSC is required to follow certain reporting, notice, and maintenance procedures, as well as the requirement of completion of a study to address sanitary sewer overflows in the system. These requirements are specified in the settlement agreement, and the schedules for developing, adopting, and implementing the necessary programs and improvements within specified deadlines, which LRSSC has done or is doing, are set forth in a separate System Evaluation and Capacity Assurance Plan (SECAP).

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 9: LITIGATION (CONTINUED)

Management is of the opinion that LRW is generally in compliance with the provisions of the settlement agreement and due to LRW's success in the past two consecutive year in reducing non-capacity SSOs, LRW is deemed to have complied with all provision of the settlement related to non-capacity SSOs. Due to various delays in the acquisition of the proposed Little Maumelle Plant site, selection of the treatment process, adoption of the necessary rate ordinance (adopted on November 28, 2006), as well as delay in securing necessary financing to comply with the Settlement Agreement (as provided in the SECAP approved by LRSSC), the sewage treatment facility was not completed as originally proposed, but it is expected to be completed in April 2011. Further court action could occur as a consequence, if the plaintiff chooses to challenge LRSSC's compliance with the Settlement. However, there is no indication such a challenge is likely.

Management completed annual reports for 2010, as required by both the CAO and the settlement agreement each year, detailing compliance actions taken during the year 2009, and the Sierra Club report was presented by staff to the LRSSC at its monthly meeting February 17, 2010 and then sent to the attorney for the Sierra Club. The annual report required by the Consent Administrative Order (CAO) was delivered to Arkansas Department of Environmental Quality (ADEQ) February 28, 2011, with a copy sent to the City of Little Rock Board of Directors on February 28, 2011. Prior such reports starting with the report for 2002, were all approved by LRSSC.

Management expects to remain in compliance with the Settlement Agreement, except for the completion schedule of the Little Maumelle Wastewater Treatment Facility, currently estimated to be completed April 8, 2011, beyond the date mentioned in the SECAP in 2002, and will in good faith take all reasonable steps in that regard to comply with the provisions of the settlement agreement, which will require the expenditure of substantial sums.

On March 9, 2006, staff representatives of ADEQ and Little Rock Wastewater (LRW) entered into a CAO addressing certain issues including, but not limited to, maintenance practices, secondary treatment bypasses at the Adams Field Wastewater Treatment Facility, administrative requirements, design and performance provisions, monitoring, measurement and program modifications, a sanitary sewer overflow plan, a system evaluation and capacity assurance plan, audits, communications, and money penalties for failure of compliance with performance and specific project deadlines. Such penalties for noncompliance range from \$100 to \$500 per day, depending upon the duration of any violation of the proposed CAO noncompliance.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 9: LITIGATION (CONTINUED)

The CAO will not terminate until such time as full compliance has been achieved and LRW is given written notice of termination by ADEQ. Management is of the opinion that LRW is presently in compliance with the CAO, and is diligently working to complete the various projects mandated by the CAO in accordance with the implementation schedule set forth therein, except for the completion of the Little Maumelle Wastewater Treatment Facility which is expected by April 8, 2011. Management expects to remain on schedule, otherwise, with the CAO throughout its term except also for the Fourche Creek Wastewater Treatment Facility upgrade mentioned hereafter. The ultimate deadline for compliance with the implementation schedule for completion of the projects required by the CAO is January 1, 2016.

LRW has progressed in 2010 with the required projects, including completion of construction of the Peak Flow Attenuation Facility in 2009, and obtained additional financing during 2009 in two bond issues for the total sum of \$14,655,000. Completion date schedules for LRW projects are set forth in the CAO, with the last project to be completed by December 31, 2015. Due to various delays with construction of the Little Maumelle Wastewater Treatment Facility, this project was not completed by December 2010, but rather it is expected to be completed by April 2011. Also, the Fourche Creek Wastewater Treatment Facility upgrades were scheduled for completion. LRW started the first of four phases in 2009 and the second phase in January 2010. Schedule 1- Disinfection- was completed in December 2010. Schedule 2 – Secondary Clarifier – was completed January 14, 2011. Schedule 3 is on hold.

Management is of the opinion that LRW staff is in compliance with the CAO, but LRW is off the implementation schedule for the Little Maumelle Wastewater Treatment Facility and the Fourche Creek Wastewater Treatment Facility upgrade. However, LRW is diligently working to complete the other projects under the circumstances in accordance with the schedule set forth in the CAO. However, LRW plans to ask ADEQ to extend the required time period for completing the project.

Management expects to remain in compliance with the CAO for the duration, and continue efforts to complete the projects required by the CAO. Under the circumstances, management does not expect penalties arising if the Little Maumelle Wastewater Treatment Facility is not completed as required, due to the nature of the delays.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 9: LITIGATION (CONTINUED)

A commercial customer of LRW has claimed past sewer overcharges in the sum of \$290,000, alleging that an appreciable quantity of its water use does not reach the sewer system; and it is therefore entitled to credit for past sewer service charges paid. LRW has stated that this customer has been in violation of its compliance order and schedule, dated August 23, 2001, as well as its pretreatment ordinance for violating certain provisions of the order, ordinance, and the industrial wastewater discharge permit issued by LRW.

This customer currently owes LRW on account for unpaid sewer service in the amount of approximately \$67,000, which the parties have tried to resolve without success. A flow meter was installed in August of 2009 to measure the flow accurately so that any credit could be determined. Accurate flow monitoring is needed to accurately calculate extra strength surcharge and volumetric rates as outlined in the applicable rate ordinances in effect during the disputed time frames.

This customer filed suit on June 26, 2009, against both LRW and Central Arkansas Water (CAW) seeking a preliminary injunction to stop collection and get credit on its account, which was denied by the court by order dated June 26, 2009. Previously, LRW held a show cause hearing on May 13, 2009, for various violations by the plaintiff of a compliance order and schedule, as well as ordinances, and LRW administrative order was entered against this customer on July 24, 2009, ordering compliance with the show cause order, which the plaintiff appealed to the Pulaski Circuit Court. On September 27, 2010, the Pulaski County Circuit Court entered a judgment denying all relief requested by the customer and upheld the Order on Show Cause which directed the customer to pay the \$67,000 in arrearages. The customer has filed an appeal from that order. At the present time, LRW does not have sufficient information to state what the outcome of the pending litigation will be or what amount of any recovery or loss may be.

Management contends that the plaintiff's claim for a credit in the amount of \$289,576 does not comply with the applicable ordinance, and is not adequately supported, although management concedes that the plaintiff may be entitled to a credit on its current billing against the current amount owed on its account, as determined by a valid flow monitoring meter. LRW is vigorously defending both cases currently in litigation in the Pulaski Circuit Court. Management is of the opinion that the outcome is uncertain, except that some amount of credit is probable. Management intends to vigorously pursue its remedies for enforcement and recovery of the amount owed, and defend against the pending litigation.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 9: LITIGATION (CONTINUED)

Although not in active litigation at this time, LRW is involved in a previously dismissed matter that it is still being addressed. It was a condemnation matter concerning easements over land upon which a new sewer line has been laid. Although there was some initial resistance from the landowner to the condemnation action, an Order of Possession was granted and the line was laid. There was no resolution over the question of just compensation, but there was no activity in the case after construction began. After giving notice, the Court dismissed the case without prejudice in October 2010. At that time, LRW considered whether to make an attempt to revive the matter, but decided that there was no benefit to LRW. LRW decided to see if owner would do anything about the money (\$47,500) still in the registry of the Court. Finally, following the dismissal, the owner has proposed a consent agreement that would finalize the easements and release the funds. LRW is still working with opposing counsel in an attempt to finalize the negotiation and language of the consent agreement, but to reach this result, the action that has been dismissed will have to be reopened for entry of a final order. We do not anticipate any further exposure for LRW.

LRW is involved in the defense of two EEOC charges. Both charges involve allegations of race discrimination based on terminations. Both employees are white males who were terminated for cause. Both individuals seek back pay and rehire. Back pay amounts are unspecified at this time. LRW intends to vigorously defend both matters.

Also, LRW has an active lawsuit in Pulaski County Circuit Court, which involves a former employee's claim for wrongful termination. Plaintiff seeks unspecified punitive and compensatory damages. There will be a vigorous defense of this claim.

NOTE 10: OTHER COMMITMENTS AND CONTINGENCIES

The Utility had commitments totaling approximately \$7,986 at December 31, 2010, for the expansion of plant capacity.

NOTE 11: PENSION BENEFITS

A. Defined Contribution Plan

LRW offers a voluntary 401(a) qualified Pension Plan to all of its employees. Those employees hired after December 31, 2008 must wait five years before they are eligible to participate in the 401(a). The following breakdown shows both LRW's and the employee's percent contribution that is calculated on an employee's base salary and years of service.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 11: PENSION BENEFITS (CONTINUED)

<u>Years of Service</u>	<u>LRW</u>	<u>Employee</u>	<u>Vesting</u>
Less than 5 years	1%	2%	None
More than 5 years, but less than 10 years	2%	4%	100%
More than 10 years	3%	6%	100%

The Pension expense is recorded for the amount of LRW's required contribution, determined in accordance with the terms of the plan. The employee contributions are pre-tax. Total employee and employer contributions were approximately \$874,951 and \$909,385 in 2010 and 2009, respectively.

B. Arkansas Public Employees Retirement System (APERS)

LRW participates in a cost-sharing multiple-employer pension plan, administered by the Arkansas Public Employees Retirement System (APERS). Members participate in a contributory plan or a noncontributory plan. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Prior to July 1, 2005, voluntary contributory plan members were required to contribute 5.0% of their annual salary to APERS. The employer's contributions are actuarially determined on an annual basis. The authority for establishing and amending both funding policies and benefits offered rests with APERS. No employees participated in this voluntary plan for the years ended June 30, 2010, 2009, and 2008. Contributions to the noncontributory plan are also actuarially determined on an annual basis.

Contributions to the noncontributory plan were approximately \$1,414,317, \$1,453,385, and \$1,529,176 for the plan years ended June 30, 2010, 2009, and 2008, respectively, and represented 11.00%, 11.01%, and 12.54%, of covered payroll for each of the plan years, respectively. These amounts represent 100% of required contributions for these three years. Employees hired on or after July 1, 2005 are subject to mandatory employee contributions of 5% of compensation. For the plan years ended June 30, 2010, 2009 and 2008, the 5% mandatory employee contributions were \$124,121 and \$124,775, and \$91,580 respectively, and are not included in the amount above.

APERS issues a stand-alone financial report. Interested parties may obtain a copy by making a written request to 124 West Capitol Avenue, Suite 400, Little Rock, Arkansas 72201 or by calling (501) 682-7800 or (800) 682-7377.

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 12: OTHER POST EMPLOYMENT BENEFITS

A. Plan Description

Little Rock Wastewater's (LRW) defined benefit post employment healthcare plan, Little Rock Wastewater Healthcare Plan (LRWHP), provides medical benefits to eligible retired employees and their beneficiaries. Employees are eligible for retiree medical coverage, including dental, prescription drug and vision benefits, if they are eligible for retirement plan benefits under the Arkansas Public Employees Retirement System. Retiree Medical Benefits cease at age 65 or upon the retiree signing a waiver of coverage.

Participants included in the actuarial valuation include retirees and survivors, and active employees who may be eligible to participate in the Plan upon retirement. LRW is required to pay actual claims. The cost of retiree health care benefits is recognized as an expense as liabilities are incurred. For the year 2010, there were 26 retirees plus 22 dependents on the LRWHP. Retiree premiums are set yearly with 2010 ranging from \$100 to \$700, which are paid directly to LRW. LRW funded approximately 97% of the postretirement healthcare benefit costs, which totaled \$439,953 for the fiscal year ended December 31, 2010.

The Little Rock Sanitary Sewer Committee assigns the authority to establish and amend the benefit provisions of the plan based on recommendations by the LRWHP. This post employment healthcare plan is administered by Regions Bank Trust Department. LRWHP does not issue a stand-alone financial report. For inquiries relating to the plan, please contact Little Rock Wastewater, Finance Division (In Care of LRWHP), 11 Clearwater Drive, Little Rock, AR 72204.

The contribution requirements are based on the most current actuarial valuations (last bi-annual was completed for December 2010) of the plan. Little Rock Wastewater makes every effort to contribute on a monthly basis toward the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The unfunded liabilities of this plan are amortized over an open, 30-year period using the Projected Unit Credit Cost Method. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or finding excess) over a period not exceeding thirty years, except that the effect of changes made to benefit provisions of the plan in 2007 over a closed ten-year period.

B. Funding Policy

LRW's health care plan is a self-insurance plan. Premium rates are set on an annual basis with members of LRW and an outside benefits consulting firm and are approved by the Little Rock Sanitary Sewer Committee. LRW's budget policy maintains that total benefits should be no more than 35% of total salaries each year. As a part of the benefits, the health insurance plans are adjusted accordingly.

C. Annual OPEB Cost and Net OPEB Obligation

For 2010 and 2009, LRW's annual OPEB cost (expense) was \$51,435 and \$50,018, respectively, and the ARC was \$47,893 and \$49,024, respectively. The following table shows the components of LRW's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the net OPEB obligation:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Annual required contribution	\$ 47,893	\$ 49,024	\$ 49,024
Interest on net OPEB obligation	(23,417)	(6,570)	(83)
Adjustment to annual required contribution	<u>26,959</u>	<u>7,564</u>	<u>96</u>
Annual OPEB cost (expense)	51,435	50,018	49,037
Contributions made	<u>(439,953)</u>	<u>(290,686)</u>	<u>(1,282,351)</u>
Increase (Decrease) in net OPEB	(388,518)	(240,668)	(1,233,314)
Net OPEB obligation-beginning of year	<u>(334,526)</u>	<u>(93,858)</u>	<u>1,139,456</u>
Net OPEB obligation-end of year	<u>\$ (723,044)</u>	<u>\$ (334,526)</u>	<u>\$ (93,858)</u>

LRW's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2010 and 2009 are as follows:

<u>Fiscal</u> <u>Year</u> <u>Ended</u>	<u>Annual</u> <u>OPEB Cost</u>	<u>Actual</u> <u>Employer</u> <u>Contributions</u>	<u>Percentage of</u> <u>OPEB Cost</u> <u>Contributed</u>	<u>Net</u> <u>OPEB</u> <u>Obligation</u>
12/31/10	\$51,435	\$439,953	855.36%	\$ (723,044)
12/31/09	50,018	290,686	581.15%	(334,526)
12/31/08	49,037	1,233,314	2515.07%	(93,858)

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 12: OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

D. Funded Status and Funding Progress:

With the most recent actuarial valuation of December 31, 2010, the plan's assets and liabilities are shown in the table below:

Actuarial Accrued Liability (AAL)	\$5,676,221
Less Actuarial Value of Plan Assets	<u>1,203,797</u>
Unfunded actuarial accrued liability (UAAL)	<u><u>4,472,424</u></u>
Funded ratio (actuarial value of plan assets/AAL)	21.21%
Covered payroll	\$13,033,208
Unfunded actuarial accrued liability as a Percentage of covered payroll	34.32%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Significant methods used for this fiscal year valuation were as follows:

Actuarial Valuation Date	12/31/2010
Actuarial Cost Method	Projected Unit Credit Cost
Amortization Method	Level Dollar, Open
Remaining Amortization Period	30 Years
Asset Valuation Method	Market Value

LITTLE ROCK WASTEWATER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 12: OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

E. Actuarial Methods and Assumptions (Continued)

The actuarial assumptions included a 7.00% investment rate, net of expenses (because the plan is funded in an irrevocable trust) and an annual health care trend rate of 10% initially, reduced 0.5% annually until reaching an ultimate rate of 5.5% for 2012 and thereafter. Mortality rates were determined using the RP-2000 mortality table for males and females. Retirement rates were provided by the Arkansas Public Employees Retirement System pension valuation. Membership data was based on the census information provided by LRW.

NOTE 13: CONCENTRATIONS

The Utility pays Central Arkansas Water for billing and collection services provided by that entity. Such payments amounted to approximately \$680,051 and \$669,398 for the years ended December 31, 2010 and 2009, respectively, and are included as operating expenses in the accompanying statements of income.

NOTE 14: RISK MANAGEMENT

The Utility has purchased commercial insurance policies for various risks of loss related to torts; theft, damage, or destruction of assets; errors or omissions; or natural disasters. Payments and premiums for these policies are recorded as expenses of the Utility. Insurance settlements have not exceeded insurance coverage in any of the past three years.

The Utility maintains a self-funded workers' compensation plan. All employees are covered by the plan. It is self-funded to a maximum of \$350,000 per occurrence per employee. Coverage amounts in excess of this limit have been obtained by means of a stop loss reinsurance policy. The Utility records an estimated liability based on claims made against the Utility. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and an estimate for claims incurred but not yet reported based on historical experience. Settlements have not exceeded coverage in each of the past three years.

The following represents the changes in approximate aggregate liabilities of the workers' compensation plan for the Utility for January 1, 2009 to December 31, 2010:

Liability balance, January 1, 2009	\$	26,628
Claims and changes in estimates		67,662
Claims payments		(43,390)
Liability balance, December 31, 2009		50,900
Claims and changes in estimates		9,117
Claims payments		(6,091)
Liability balance, December 31, 2010	\$	<u>53,926</u>

LITTLE ROCK WASTEWATER
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1: GENERAL

The accompanying schedule of expenditures of federal awards presents the activity of the federal financial assistance program of the Little Rock Wastewater (LRW), a component unit of the City of Little Rock, Arkansas. All federal awards received directly from federal agencies as well as federal awards passed through other government agencies are included on the schedule.

NOTE 2: BASIS OF ACCOUNTING

The accompanying schedule of expenditures of federal awards is presented using the basis of accounting described in Note 1 to the LRW's financial statements.

NOTE 3: PURPOSE OF FUNDS RECEIVED

Funds received under the LRW's participation in the State Revolving Fund Program are used in construction related activities involving publicly-owned treatment works and/or developing a nonpoint source pollution control program.

NOTE 4: RELATIONSHIP TO FINANCIAL STATEMENTS

Principal repayments in 2010 are included in the statements of cash flows in the LRW's financial statements. Bonds payable of \$81,830,242 at December 31, 2010 are included in Note 7 to the Utility's financial statements. Total expenditures in 2010 are included in acquisition and construction of capital assets in the statements of cash flows in LRW's financials statements.

STATISTICAL DATA

Little Rock Wastewater

THIS PAGE INTENTIONALLY LEFT BLANK.

STATISTICAL SECTION – CONTENTS AND EXPLANATIONS (Unaudited)

This part of Little Rock Wastewater’s comprehensive annual financial report presents summary information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about Little Rock Wastewater’s overall financial health.

A – FINANCIAL TRENDS INFORMATION

These schedules contain trend information to help the reader understand how LRW’s financial performance and well-being have changed over time.

Net Assets by Component, Last 10 Years	76
Changes in Net Assets	77
Operating Revenues by Source	78
Operating Expense	79
Nonoperating Revenues and Expenses	80

B – REVENUE CAPACITY INFORMATION

These schedules contain information to help the reader assess LRW’s primary revenue sources.

New Construction/Inspections Completed	81
Number of Sewer Customers by Type	82
Sewer Rates (Inside City)	83
Sewer Rates (Outside City)	84

C – DEBT CAPACITY INFORMATION

These schedules present information to help the reader in assessing the affordability of LRW’s current levels of outstanding debt and its ability to issue additional debt in the future.

Ratios of Outstanding Debt by Types	85
Pledged-Revenue Coverage	86

D – DEMOGRAPHIC AND ECONOMIC INFORMATION

These schedules offer demographic and economic indicators to help the reader understand the environment within which LRW’s financial activities take place.

Demographic and Economic Statistics	87
Ten Largest Sewer Customers	88
Principal Employers	89

E – OPERATING INFORMATION

These schedules contain information about LRW’s operational activities.

Number of Employees by Identifiable Activity	90
Operating and Capital Indicators	91

2005	30,635,000	42,048,744		72,683,744	396.89	0.17%
2006	29,915,000	57,177,864		87,092,864	475.57	0.20%
2007	163,305,000	64,288,425		227,593,425	1,242.78	0.54%
2008	177,480,000	70,978,477		248,458,477	1,356.71	0.58%
2009	181,995,000	88,471,455		270,466,455	1,476.89	0.64%
2010	179,640,000	81,817,242		261,457,242	1,351.03	0.62%

Notes: LRW's bond covenants stipulate that it may issue debt as long as certain conditions are met. The major criterion is that the net earnings of the system must be at least 1.2 times the year's average combined debt service requirement.

See Notes to the Financial Section #7 - Long-Term Debt for more information.

^aThe yearly total amount includes only that portion of debt that has been borrowed up to year end and not total loan amount on any non-completed project for which the loan is associated with.

Schedule 10

2010	42,161,964	(23,310,476)	18,851,488	444,018,097	29	15,310,969	1.23

As part of each bond ordinance, LRW may treat any increase in rates for the System enacted subsequent to the first day of such preceding fiscal year as having been in effect during or throughout such fiscal year and may include in Gross Revenues for such fiscal year the amount that would have been received. Debt Coverage shall not be less than 1.20 of the average annual principal and interest requirements on all outstanding System Bonds and the additional bonds proposed. The ordinance also states that in order to reduce rates, the average annual principal and interest requirement must meet a 1.30 coverage.

See Notes to the Financial Section #7 - Long-Term Debt for more information.

^a Includes interest on investment income.

^b See Schedule 4.

^c Includes an estimated look-back rate increase of \$2.52 Million in Gross Revenues based on September 2002 rate increase.

^d Includes an estimated look-back rate increase of \$2.09 Million in Gross Revenues based on June 2003 rate increase.

^e Includes an estimated look-back rate increase of \$4.69 Million in Gross Revenues based on December 2006 rate increase.

^f Includes all Revolving Loan Fund (RLF) debt payments as if projects were completed and repaying loans.

^g Includes an estimated look-forward rate increases of \$1.090 Million, \$1,498 Million, and \$1,947 Million in Gross Revenues based on approved Jan 1, 2008, Jan 1, 2009 and Jan 1, 2010 rate increases.

^h Includes an estimated look-forward rate increases of \$1,555 Million, and \$2,021 Million in Gross Revenues based on approved Jan 1, 2009 and Jan 1, 2010 rate increases.

ⁱ Includes an estimated look-forward rate increases of \$1,988 Million in Gross Revenues based on approved Jan 1, 2010 rate increases.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Component Unit Financial Statements Performed in Accordance with *Government Auditing Standards*

The Members of the Little Rock
Sanitary Sewer Committee
Little Rock, Arkansas

We have audited the financial statements of the business-type activities of Little Rock Wastewater (LRW), a component unit of the City of Little Rock, Arkansas, as of and for the year ended December 31, 2010, and have issued our report thereon dated March 11, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Little Rock Wastewater's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Utility's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Utility's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Utility's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Utility's financial statements that is more than inconsequential will not be prevented or detected by the Utility's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Utility's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Internal Control Over Compliance

Management of Little Rock Wastewater is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Little Rock Wastewater's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Little Rock Wastewater's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above.

This report is intended solely for the information of the Sanitary Sewer Committee, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

The Members of the Little Rock
Sanitary Sewer Committee
Little Rock, Arkansas

Compliance

We have audited the compliance of Little Rock Wastewater with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect each of its major federal programs for the year ended December 31, 2010. Little Rock Wastewater's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Little Rock Wastewater's management. Our responsibility is to express an opinion on Little Rock Wastewater's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *"Audits of States, Local Governments, and Non-Profit Organizations."* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Little Rock Wastewater's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Little Rock Wastewater's compliance with those requirements.

In our opinion, Little Rock Wastewater complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2010.

The Members of the Little Rock
Sanitary Sewer Committee
Page Two

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Little Rock Wastewaters financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information of the Sanitary Sewer Committee, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

LITTLE ROCK WASTEWATER
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
IN ACCORDANCE WITH OMB CIRCULAR A-133
FOR THE YEAR ENDED DECEMBER 31, 2010

SECTION I: SUMMARY OF AUDITORS' RESULTS

1. Type of Report Issued, Financial Statements
The independent auditors' report expresses an unqualified opinion on the basic financial statements.
2. Significant Deficiencies, Financial Statements
No significant deficiencies were disclosed during the audit of the basic financial statements.
3. Material Noncompliance, Financial Statements
No instances of noncompliance material to the financial statements were disclosed during the audit.
4. Significant Deficiencies, Major Programs
No significant deficiencies were disclosed during the audit of the major federal award programs.
5. Type of Report Issued, Compliance
The auditors' report on compliance for the major federal award programs expresses an unqualified opinion.
6. Audit Findings Under Section 510(a)
As reported below, there were no audit findings relative to the major federal award programs.
7. Major Programs
Environmental Protection Agency CFDA Number 66.458.
8. Threshold between Type A and Type B Programs
The threshold for distinguishing Type A and B programs was \$300,000.
9. Type of Auditee
Little Rock Wastewater qualified as a low-risk auditee as that term is defined by OMB Circular A-133.

Section II: FINANCIAL STATEMENT FINDINGS

1. Significant Deficiencies
None
2. Significant Deficiencies – Prior Year
None

Section III: FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

1. Significant Deficiencies
None
2. Significant Deficiencies – Prior Year
None
