## Introductory Section

LITTLE ROCK

**Water Reclamation  
Authority**

ONE WATER.  
ONE FUTURE.

May 2, 2025

To Little Rock Water Reclamation Commission,  
Little Rock City Board of Directors, and  
Little Rock Water Reclamation Authority Customers

The staff of Little Rock Water Reclamation Authority (LRWRA or Utility) is proud to present the Annual Comprehensive Financial Report for the fiscal years ended December 31, 2024 and 2023. State law requires every general-purpose local government publish a complete set of audited financial statements for each fiscal year. This report is published to fulfill that requirement for the fiscal year ended December 31, 2024. Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with LRWRA.

The Annual Comprehensive Financial Report is management's representation of the finances of LRWRA. Management assumes full responsibility for the completeness and reliability of all the information presented in this report, based upon a comprehensive framework of internal control that LRWRA has established for this purpose. Because the cost of internal controls should not outweigh their benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement.

LRWRA's financial statements have been audited by **Forvis Mazars, LLP**, a firm of licensed certified public accountants. **Forvis Mazars, LLP** has issued unmodified (clean) opinions on LRWRA's financial statements for the years ended December 31, 2024 and 2023. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

### ***Profile of the Government***

The *1933 Arkansas General Assembly Enacted Act 132* authorizes all cities and towns in the state to levy user charges against property owners "to construct, own, equip, operate, maintain, and improve" sewage collection and treatment systems. In June 1935, a full-fledged Sanitary Sewer Committee was appointed, and the City of Little Rock Sanitary Sewer System was created. The seven-member committee changed the governing board from Little Rock Sanitary Sewer Committee (LRSSC) to Little Rock Water Reclamation Commission (LRWRC) in 2015. LRWRC changed the organization's name from Little Rock Wastewater (LRW) to Little Rock Water Reclamation Authority (LRWRA) in July 2017. The LRWRC manages and controls the City's sewer system. The LRWRC and LRWRA must seek approval of all sewer rate increases and long-term financing through the City of Little Rock Board of Directors (LRBOD). The LRBOD appoints LRWRC members. The LRWRC in turn hires a Chief Executive Officer. The LRWRC meets publicly on the third Wednesday of each month.

LRWRA provides wastewater service to its customers. For financial reporting purposes, LRWRA is considered a component unit of the City of Little Rock, Arkansas. The LRWRC operates and manages LRWRA with the City of Little Rock (City) having the power to impose its will on LRWRA. LRWRA adopts an annual operating, capital improvement, and debt service budget along with associated rates and fees for services; and issues updates to its Rules and Regulations.

LRWRA recovers the cost of providing wastewater services primarily through user charges and collects a Franchise Fee which is remitted to the City.

The LRWRC is required to adopt a final budget by no later than the close of the preceding fiscal year. This annual operating and capital improvement budget serves as the foundation for LRWRA's financial planning and control. Operating and capital budgets are submitted by each department, consolidated by the Finance Department, and reviewed by management of LRWRA and the budget subcommittee before final approval from the LRWRC. Financial overviews are presented at each monthly LRWRC meeting to show that current operations are being conducted in accordance to management's intentions as reflected in the approved budget.

### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment in which LRWRA operates.

### **Local Economy**

The City currently enjoys a favorable economic environment and local indicators point to continued stability. The City is the capital and largest city of Arkansas as well as the governmental, economic, cultural, and financial center of the state. The City and surrounding communities have a mix of industry including state government, centralized healthcare centers, a financial sector, information services sector and a variety of other sectors that are not cyclical. As Arkansas's capital city, Little Rock is renowned for its charming hospitality, history, and culture. In April 2024, Little Rock was voted number 25 by Southern Living poll of best southern cities. They praised Little Rock for being the best of both worlds. "You can embark on top-notch outdoor pursuits one day and enjoy all the hallmarks of a buzzy metropolitan city the next."

The customer base has continued to grow at a slow but steady pace from previous years for the domestic (residential) and non-domestic (non-residential) users of the City of Little Rock Water Reclamation System (System). The number of domestic customer accounts has increased by 4.40% over the past 10 years, while non-domestic customer accounts have increased by 6.30% over the same period. The overall growth of total customer accounts for the 10-year period is 4.59%.

### **Long-Term Financial Planning**

During the 2025 planning process, LRWRA affirmed that the most significant future capital investment requirements include: (1) continued National Pollution Discharge Elimination System (NPDES) permit compliance for all three wastewater treatment facilities; (2) implementation of a fully integrated Asset Management/ Preventative Maintenance Program, and (3) supporting growth driven by economic development in the Port of Little Rock and westward expansion of the City.

CIP projects such as routine wastewater collection system upgrades, pumping and treatment facility improvements and general plant renewals are identified within the Asset Management/ Preventive Maintenance Program. These items along with continued compliance with NPDES permit requirements make up the estimated \$69.6 million for 2025 CIP expenditures.

### **Collection System Rehabilitation Capacity Assurance Projects**

Various rehabilitation projects are forecast to require expenditures totaling \$3.5 million in 2025 and will be funded with system revenues and sewer revenue bonds issued in 2020. The balance of the cost will be funded with System revenues and sewer revenue bonds to be issued in future years.

### **Trenchless Sewer Line Rehabilitation**

Trenchless sewer line rehabilitation is for the renewal of structurally deteriorated line segments that contribute to non-capacity overflows. The line segments for trenchless rehabilitation are typically located in areas where replacement by reconstruction is costly due to site restrictions. For 2025, \$1.5 million is forecasted for trenchless rehabilitation work. The Utility is projecting that \$10.5 million will be needed in total for years 2026 to 2030. This project is being funded with system revenues and reserves along with future bond issues.

### **Fourche Creek Water Reclamation Facility (FCWRF) Solids Processing**

FCWRF Solids Processing will improve the performance and reliability, as well as lower operation and maintenance cost throughout the facility. The 2025 cost is estimated to be \$23 million and estimated to cost an additional \$16.7 million through 2027 and will be funded by revenue bonds issued in 2024.

### **Adams Field Water Reclamation Facility (AFWRF) Influent Pump Station and Process Rehabilitation**

The influent pump station rehabilitation will increase reliability, efficiency, and processes of treatment at AFWRF. The 2025 cost is estimated to be \$10.9 million and estimated to cost an additional \$6.8 million through 2027 and will be funded by revenue bonds issued in 2024 and system revenues.

### **Financial Policies**

LRWRA is a component unit of the City of Little Rock and operates as an autonomous Enterprise Fund, which is a proprietary fund. Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of LRWRA is that the cost (including depreciation) of providing goods or services to the public on a continuing basis be financed or recovered primarily through user rates. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing, and related debt issues and billing and collection.

### **Flow of Funds Policy**

The flow of funds is established based on parity bond ordinances. The most recent City of Little Rock Bond Ordinance is No. 21,699. The ordinance requires that rates charged for services of the System are fixed by ordinances of the City and all System revenues shall be paid into a special fund designated "Sewer Fund" (or Revenue Fund).

The System revenues deposited in the Revenue Fund are pledged and applied in sequence to: (a) current expenses of maintenance and operations; (b) payment, pro rata, into the bond fund being maintained in connection with the Parity Bonds and any Additional Bonds that require monthly deposits; (c) payment, pro rata, into the bond fund being maintained in connection with the Subordinate Bonds; (d) payment into the Deprecation Fund (3% of System Revenues remaining after disbursement into (a), (b), and (c) from above); and (e) any surplus in the Revenue Fund after making all disbursements and providing for all funds described above may be used for any lawful purpose related to the System authorized by the LRWRA.

### **Sewer Revenue Fund**

All gross revenues are deposited into the Sewer Revenue Fund (Revenue Fund). Monies deposited in the Sewer Revenue Fund shall first be used to pay all Operation and Maintenance Expenses (O&M). The revenues of the System not actually required to pay Operation and Maintenance Expenses (Net Revenues) shall be transferred from the Revenue Fund to the other funds, in the order of priority, in the manner set forth in the Bond Ordinance.

### **Bond Fund**

The following shall be deposited in the Bond Fund:

1. Such amounts, in equal monthly installments by the 10th of the month following the month of closing, and on or before the 10th of each month thereafter, as will be sufficient to pay principal and interest scheduled to come due on the bonds' next principal and interest payment date, less any amount already on deposit therein for such purposes derived from the proceeds of the bonds or from any other lawfully available source.
2. Additional sums as necessary to provide for the Trustee's fees and expenses and any arbitrage rebate payment due to be paid to the United States Treasury under Section 148(f) of the code.

### **Bond Reserve Fund**

If the funds on deposit in the Bond Reserve Fund created for the benefit of all bonds are equal to the Reserve Fund Requirement, no deposits need to be made to the credit on the individual Bond Reserve Funds. However, should the Bond Reserve Fund at any time contain less than the Reserve Fund Requirement, then subject and subordinate to making the required deposits to the credit of the Bond Fund, LRWRA shall transfer from the Net Revenues in the Revenue Fund and deposit to the credit of the Bond Reserve Fund, by the 10th day of each month, such amounts in equal monthly installments to accumulate within no longer than a 24-month period equal to the Reserve Fund Requirement. The money on deposit in the Bond Reserve Fund may be used to pay the principal and interest on any outstanding bonds when and if there are not sufficient funds on deposit in the Bond Fund for such purposes.

### **Depreciation Fund**

Three percent (3%) of the remaining money in the Revenue Fund at the end of each month after all payments required to be made from the Revenue Fund have been made and all deficiencies accumulated from prior months have been paid shall be deposited in the Depreciation Fund and shall be held in and paid out from such fund for the following purpose:

To be used solely for paying the cost of replacement made necessary by the depreciation of the System.

### **Contributions in Aid of Construction Fund**

Any monies that may be received from property developers that shall represent contributions in aid of construction shall be deposited in a separate account at the depository bank. Such contributions shall not be considered as part of the gross revenues of the System. Payments from such bank account shall be made only for the purposes for which the contributions were made, including any refunds that may become due to any contributor.

### **Capital Projects Fund**

Any monies derived from the proceeds of Sewer Revenue Bond issues, State RLF issues, or transfers from the Revenue Fund to finance major capital improvement projects.

### **Capital Improvements Budget Policy**

A budget will be prepared for all capital expenditures contemplated, including estimated amounts to complete active construction projects, and capitalized purchases planned for the succeeding calendar year, and all projects for which a commitment of funds is to be made even though the actual expenditure will not occur in the succeeding year.

This budget is used for projecting anticipated capital requirements and becomes a vital element in the LRWRA Operating Plan.

The initial capital budget is prepared by each department at LRWRA, assimilated and reviewed by the Engineering and Finance departments, and submitted for approval to the Director of Engineering and the Executive Staff.

After the CEO's approval, the Capital Budget will be incorporated into the LRWRA Operating Plan and submitted to the LRWRC for approval.

Upon approval, all proposed expenditures included in the Capital Budget will be classified as "Planned Expenditures." Any capital expenditures proposed during the plan year which are not included in the approved capital budget will be classified as "Unplanned Expenditures."

Expenditures equal to or greater than \$5,000 on construction projects or purchases of new equipment with an expected useful life of more than one year are defined as capital expenditures. Expenditures equal to or greater than \$5,000 on work, equipment parts, or a combination of the two, that add discernible life to an existing depreciated asset are also defined as capital expenditures. In general, expenses associated with additions, replacements, reconstructions, improvements, or betterments qualify as capital expenditures.

Due to the complex nature of most capital improvement projects, they generally take more than one (1) fiscal year to complete. Therefore, many projects carry over from year to year before they are completed and placed into service. LRWRA does not award a project contract unless it is fully funded. However, many large projects have multiple year and/or multiple phase construction periods. LRWRA uses several benchmarks of efficiency to ensure capital budget integrity. These include timely completion clauses, aggressive efforts to minimize change orders, and tracking the progress of the overall Capital Improvement Plan (CIP).

The following is a typical schedule for the development of a CIP and an O&M budget:

- January 1 – fiscal year begins.
- July and August – department heads formulate their requests for O&M budgets as well as their capital budget requests for the upcoming budget year and the succeeding four years.
- September – department heads and supervisors submit their budget requests, which are then combined into the first draft of the overall LRWRA budget. The CEO, officers, directors, department heads, and supervisors review the submitted budgets and establish priorities based on need and availability of funds.
- September (continued) – any changes resulting from management reviews are made at that time. One or more members of the LRWRC, serving as the Budget Subcommittee, reviews the budget document with LRWRA staff. Any revisions resulting from the Budget Subcommittee's review are made at that time.
- October – the budget is presented at the regularly scheduled LRWRC meeting.
- November – the budget is considered for approval at the regularly scheduled LRWRC meeting.

#### **Budget Amendment Policy**

Operating or capital budget line item transfers are done on a memorandum basis and submitted by the requesting manager to the Controller. Budgetary transfers that do not increase the amount of the consolidated budget are subject to approval by management but do not require approval from the LRWRC. Emergency funding authorizations and amendments that increase the amount of the approved operating or capital budgets require approval from the LRWRC.

#### **Revenue Policy**

City of Little Rock Ordinance No. 21,080 requires that the LRWRC maintain rates sufficient to produce or yield revenues to provide in each fiscal year amounts adequate to pay all estimated expenses incurred for the operations and maintenance of the System as such expenses that shall accrue during the year. The current bond ordinance requires that LRWRA produce an additional amount equal to 100% of the aggregate amount required to be paid in such year for principal and interest and redemption premiums on bonds payable from the Bond Fund.

Because LRWRA operates in a proprietary manner, the major revenue sources are user charges for wastewater services. LRWRA's revenue requirements are based on cost of service. This includes operating costs, expenditures for capital improvements, and repayment of debt. The specific sources of revenue are described in more detail in the financial overview section of this budget.

#### **Operating Cash Reserve Policy**

Resolution No. 2012-12 adopted by the LRWRC created an operating cash reserve requirement whereby the amount of unrestricted cash on hand needs to be equal to or greater than the total cash expenditures anticipated over 60 days to satisfy operations and maintenance expenses, revenue-funded capital expenditures, and debt service requirements. LRWRA has consistently maintained an operating cash reserve balance that has met or exceeded this requirement since its effective date. Finally, this resolution also authorizes the CEO and staff to take actions necessary if reserve levels drop below the requirement including the adjustment of expenses to replenish reserves.

### **Investment Policy**

LRWRA's Investment Policy outlined in the bond ordinances requires available funds to be invested and reinvested at the direction of the LRWRC in eligible investments. Those eligible investments shall have a maturity of no longer than five (5) years from the date of acquisition unless, as documented at the time of acquisition, the investment is to fund or support a specific purpose and there are no expectations that the investment will be sold before maturity. The primary objectives of the investment policy are: 1) preservation of capital; 2) safety of LRWRA funds; 3) maintenance of sufficient liquidity; 4) maximization of return within acceptable risk constraints; and 5) diversification of investments. The Investment Policy requires an annual review of its investment policy and strategies by the CFO and Controller.

"Eligible Investments" defined by Arkansas statute (AR § Code 19-1-501) permit LRWRA to invest in investment securities that meet the following criteria: (1) direct or guaranteed obligation of the United States that is backed by the full faith and credit of the U.S. Government; (2) A direct obligation of an agency, instrumentality, or government-sponsored enterprise created by act of the United States Congress and authorized to issue securities or evidences of indebtedness guaranteed for repayment by the U.S. Government; and (3) A bond of a governmental entity that: (A) Is issued for an essential governmental purpose or is guaranteed by a state agency; and (B) Has a debt rating from a nationally recognized credit rating agency of "A" or better at the time of purchase, or other debt of the state, a school district, a county government, a municipal government, or an authority.

### **Debt Service Policy**

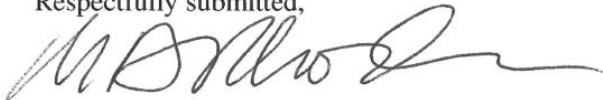

Approved rate increases are included in the Financial Plan and are mainly driven by the CIP and debt service coverage required both by the revenue bond covenants and by the LRWRC benchmarks for financial management. The parity revenue bond covenants require debt service coverage of 1.2 times or greater (meaning 120% of the current year's debt service requirements must be available that fiscal year to issue new debt). LRWRA does not have a legal debt limit.

### **Awards and Acknowledgements**

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Little Rock Water Reclamation Authority for its Annual Comprehensive Financial Report for the fiscal year ended December 31, 2023. This was the 20th year in a row that LRWRA has received this prestigious award. To be awarded a Certificate of Achievement, LRWRA had to publish an easily readable and efficiently organized Annual Comprehensive Financial Report that satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one (1) year. We believe that our Annual Comprehensive Financial Report for the year ended December 31, 2024 continues to meet the Certificate of Achievement Program's requirements, and will be submitting it to the GFOA to determine its eligibility.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of LRWRA Finance and the extended employees of LRWRA for their adherence to established policies, practices, and internal controls.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Mike Rhoda", with a long, sweeping horizontal line extending to the right.

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the business-type activities and the fiduciary activities of Little Rock Water Reclamation Authority (Utility), collectively a component unit of the City of Little Rock, Arkansas, as of and for the years ended December 31, 2024 and 2023 and the related notes to the financial statements, which collectively comprise the Utility's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the fiduciary activities of the Utility, as of December 31, 2024 and 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Utility and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Utility's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Utility's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Utility's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension and other postemployment benefit information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Utility's basic financial statements. The budgetary comparison schedule, schedule of operating expenses by department – excluding depreciation, and schedule of bonded indebtedness are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Little Rock Water Reclamation Authority  
Management's Discussion and Analysis  
Year Ended December 31, 2024**

---

As management of Little Rock Water Reclamation Authority (LRWRA), we offer readers of LRWRA's financial statements this narrative overview and analysis of the financial activities of LRWRA for the fiscal year ended December 31, 2024. We encourage readers to consider the information presented here in conjunction with additional information that is provided in our letter of transmittal, which can be found on pages 1 through 9 of this report. The annual comprehensive financial report is made available via the internet ([www.lrwra.com](http://www.lrwra.com)). The use of the internet is consistent with LRWRA's objective to provide greater information to the public in a more efficient manner, reducing paperwork, labor, and communication costs.

***Financial Highlights***

- Total Assets and Deferred Outflows of Resources at December 31, 2024 were \$712.0 million and exceeded Total Liabilities and Deferred Inflows of Resources that totaled \$451.4 million. Total Net Position was \$260.6 million, an increase of 2.4% from 2023. Total Assets and Deferred Outflows of Resources at December 31, 2023 were \$708.1 million and exceeded Total Liabilities and Deferred Inflows of Resources that totaled \$453.6 million. Total Net Position was \$254.5 million, an increase of 3.2% from 2022.
- Operating Revenue for fiscal year 2024 was \$66.7 million, which is a decrease of \$1.8, or 2.7%, from fiscal year 2023. Operating Revenue for fiscal year 2023 was \$68.5 million, which is an increase of \$2.7 million, or 4.1%, from fiscal year 2022.
- Operating Expenses, before Depreciation, for fiscal year 2024 were \$34.2 million, which is a increase of \$1.3 million, or 1.3%, compared to fiscal year 2023. The increase was primarily driven by a \$927 thousand increase in supplies expense. Operating Expenses, before Depreciation, for fiscal year 2023 were \$32.9 million, which is an increase of \$3.4 million, or 11.6%, from 2022. The increase was primarily driven by a \$1.9 million increase in salaries and benefits expense.
- Operating Expenses, including Depreciation, for fiscal year 2024 were \$55.6 million, which is an increase of \$2.0 million, or 3.8%, from fiscal year 2023. Operating Expenses, including Depreciation, for fiscal year 2023 were \$53.6 million, which was a decrease of \$5.6 million or 11.6%, from fiscal year 2022.
- Debt Service Coverage was 2.28, which exceeds the 1.20 required by the Bond Covenant. In the Statistical Data Section, Schedule 11 – Pledged-Revenue Coverage provides more information on debt service coverage.

**Little Rock Water Reclamation Authority  
Management’s Discussion and Analysis  
Year Ended December 31, 2024**

**General Trends**

The number of LRWRA’s customer accounts increased as of December 31, 2024 from December 31, 2023 by 920, or 1.29%, and increased from 2022 by 207, or 0.29%. Over a 10-year period, the customer growth rate was 3.83%. As you can see from the chart below, annual customer growth has trended upward from 2015 to present.

**Total Sewer Accounts**

Water Reclamation Authority Customers	2024	2023	2022
Beginning customer accounts	71,181	70,974	70,727
Additional customers (net)	920	207	247
Ending customer	72,101	71,181	70,974

The following chart shows a sample monthly domestic customer bill based on a consumption of 600 cubic feet (CcF) in 2024, 2023, and 2022. The changes in consumption are the result of increased water consumption experienced during the pandemic. These amounts do not include a 10.0% franchise fee that is collected for and paid to the City of Little Rock or the monthly \$1.00 service line replacement fee.

Domestic Bill	2024	2023	2022
	\$ 41.73	\$ 41.73	\$ 41.73

Little Rock’s Water Reclamation Authority rates remain moderately higher than neighboring utilities based on yearly rate surveys. The LRWRC annual budget process allows LRWRA to conduct long-range planning, which provides insight as to when future rate increases might be needed as well as the potential need for new debt offerings.

***Little Rock Water Reclamation Authority System***

LRWRA is regulated by the United States Environmental Protection Agency (EPA) and the Arkansas Department of Environmental Quality (ADEQ). These agencies issue permits to LRWRA for discharge of treated wastewater. Currently, LRWRA has 34 remote, unattended pumping stations, one tertiary and two secondary treatment facilities, a peak flow attenuation facility, a maintenance facility, and an administration building. The collection system includes over 124 square miles containing approximately 1,416 miles of sewer lines. The National Association of Clean Water Agencies (NACWA) awarded all three LRWRA facilities in 2024. Adams Field was awarded a Platinum Peak Performance Award, which recognizes facilities with no permit violations for the entire calendar year, Fourche Creek was awarded a Platinum Peak Performance Award, and Little Maumelle was awarded a Gold Award, which recognizes facilities with consistent record of full compliance for a consecutive five-year period!

***Adams Field Water Reclamation Facility (AFWRF)***

AFWRF has been in operation since 1961 and was Little Rock's first water reclamation facility. The facility was put into operation at a cost of \$3.5 million and was only equipped with primary treatment capability. Secondary treatment facilities were added in the early 1970s at a cost of \$6.2 million. In 2007, the primary clarifiers were upgraded to include peak flow capabilities, and a 14-million-gallon equalization basin was constructed at a cost of \$27.5 million. In an effort to further reduce wet-weather overflows, the facility was expanded in 2022 to increase the peak flow treatment capacity to 94 million gallons per day (MGD) for approximately \$30 million. This upgrade included the construction of cloth media filters and additional treatment facility upgrades that are operated in parallel with the existing activated sludge facilities to further aid in nutrient removal.

***Fourche Creek Water Reclamation Facility (FCWRF)***

FCWRF has been providing wastewater treatment to the Fourche Creek Valley since 1983 when it was placed in service at a cost of \$19.6 million. The step-feed activated sludge process was added to the facility in 1989 for a cost of approximately \$9 million. The FCWRF is also a two-stage, or secondary treatment facility. It has a rated biological treatment capacity of 16 MGD. The facility's average annual dry weather influent flow is 12 MGD. In 2020, the facility underwent a hydraulic upgrade to increase the wet-weather capacity from 36 MGD to 48 MGD and subsequent asset renewals for existing treatment processes at a cost of approximately \$9 million.

**Little Rock Water Reclamation Authority  
Management's Discussion and Analysis  
Year Ended December 31, 2024**

---

The Little Maumelle Water Reclamation Facility (LMWRF) came online in September 2011 and serves the residents of the Little Maumelle River Valley. It is the only treatment facility in Arkansas to have a tertiary treatment process. This activated sludge treatment plant of 4 MGD was built so that it could be expanded to 16 MGD. The facility has an odor control system and uses Ultraviolet light for disinfection. The outfall point (where the disinfected wastewater or effluent will be discharged) has a special diffuser that will scatter the effluent so as not to have one giant flow of treated wastewater. Aesthetically speaking, the facility is completely covered and constructed with a brick façade to match the theme of the nearby Pinnacle Mountain State Park. The cost for land, engineering, construction, administration expenses, and contingencies was \$80.9 million.

**Little Rock Water Reclamation Authority  
Management's Discussion and Analysis  
Year Ended December 31, 2024**

---

The Peak Flow Attenuation Facility was constructed in two phases. Phase I was placed in service in 2009 to help improve the hydraulic capacity of the collection system during wet weather events and address wet weather overflows in the western end of the Fourche Creek Bottoms. This phase consists of a 42-MGD pump station, 12,000 linear feet (LF) of 48-inch force main, two (2) diversion structures, and a 30-million-gallon storage facility. This along with an associated project, Arch Street Pump Station rehabilitation and hydraulic upgrade, cost \$54.5 million. Phase II was completed in 2019 at a cost of \$20.3 million dollars that included adding an additional 31-million-gallon storage facility and pumping equipment to increase capacity during wet weather overflows. It is part of a system created to reduce the effects of designated or “designed” storm events, also referred to as ‘peak flow events,’ where a preestablished amount of rain accumulates within 48 hours.

The Clearwater Maintenance Facility is the operations/maintenance complex on a 36-acre tract that was built in 1989 at a cost of \$1.79 million. LRWRA jointly owns the building with Central Arkansas Water, and the two (2) utilities share a Fleet Maintenance Department for the maintenance and repair of vehicles and equipment. About 90 LRWRA employees in the Maintenance department work from this facility, making it the home base for a large portion of LRWRA workforce.

The Clearwater Administration Building was built in 2005 at a cost of \$3.0 million and is located near the Clearwater Maintenance Facility. The CEO, Department Managers, Engineering, Information Services, Accounting, Human Resources, Safety, Communications, and Purchasing are all located in the administrative building. This building is also the location for the monthly LRWRC meetings.

***Overview of the Financial Statements***

This discussion and analysis is intended to serve as an introduction to LRWRA's basic financial statements. LRWRA's basic financial statements are: 1) Statement of Net Position; 2) Statement of Revenues, Expenses, and Changes in Net Position; 3) Statement of Cash Flows; 4) Statement of Fiduciary Net Position; 5) Statement of Changes in Fiduciary Net Position; and 6) Notes to Financial Statements.

The Statement of Net Position presents information on all LRWRA's assets, deferred outflows, liabilities, and deferred inflows with the difference between the four (4) reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of LRWRA is improving or deteriorating.

The Statement of Revenues, Expenses, and Changes in Net Position reflects the results of the business activities over the course of the most recent fiscal year and information as to how the net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

The Statement of Cash Flows presents changes in cash and cash equivalents, resulting from operational, financing, and investing activities. This statement presents cash receipts and cash disbursement information, without consideration of the earnings event, when an obligation arises, or depreciation of capital assets.

***Fiscal Years 2022–2024 Financial Information***

***Statement of Net Position***

Total Assets and Deferred Outflows of Resources increased by \$3.9 million in 2024 and increased \$25.4 million in 2023. The change from 2023 to 2024 was primarily due to an increase in short-term investments of \$7.2 million, which was offset by a decrease in noncurrent restricted cash for capital projects of \$2.0 million. The change from 2022 to 2023 was primarily due to the increase in unrestricted net position, which increased \$13.7 million in 2023. Also, current assets increased \$3.8 million in 2024 and \$14.9 million in 2023. The 2024 increase in current assets was primarily due to the increase in short-term investments of \$7.2 million. The 2023 increase in current assets was primarily due to the increase in short-term investments of \$24.3 million.

Current Liabilities increased 10.7%, or \$2.7 million, in 2024 and increased 44.6%, or \$7.6 million, in 2023. The primary cause for the increase in 2024 was the increase in the current portion of bonds payable. The primary cause for the increase in 2023 was the increase in the current portion of bonds payable.

Noncurrent Liabilities decreased 1.2%, or \$5.2 million, for 2024 due to a decrease in net pension liability of \$3.0 million. Noncurrent Liabilities increased 2.4%, or \$9.8 million, for 2023 due to an increase in bonds payable of \$8.3 million. LRWRA's bond information can be found in Note 6 starting on Page 40. Additional information for GASB 68 net pension liability can be found on Page 87. Total Liabilities decreased in 2024 by \$2.5 million from 2023 and increased by \$17.5 million in 2023 from 2022.

**Little Rock Water Reclamation Authority  
Management's Discussion and Analysis  
Year Ended December 31, 2024**

In 2024, Total Net Position increased by \$6.1 million, or 2.4%, including \$3.1 million from income before capital contributions and grants, and \$3 million from capital contributions and grants. In 2023, Total Net Position increased by \$8.0 million, or 3.2%, including \$5.1 million from income before capital contributions and grants, and \$2.9 million from capital contributions and grants.

**Statement of Revenues, Expenses, and Changes in Net Position**

Operating revenue consists of three (3) general categories: customer assessments, industrial surcharges, and other fees and income. Customer assessments are monthly residential/commercial service charge billings. Industrial surcharges consist of fees charged to industrial customers based on their wastewaters having excessive levels of Biochemical Oxygen Demand (BOD), Total Suspended Solids (TSS), Oil and Grease (O&G), Chemical Oxygen Demand (COD), or pH discharge. Other fees and income include permit fees, connection fees, inspection fees, sewer dump permits, and co-generation revenue.

**Little Rock Water Reclamation Authority  
Management's Discussion and Analysis  
Year Ended December 31, 2024**

---

Nonoperating revenue consists of interest income from investments, cash and cash equivalent accounts, along with gains on disposal of property, gains on investments, and other income.

Total Revenue decreased from 2024 to 2023 by \$0.8 million, or 1.1%, and from 2022 to 2023, it increased by \$5.1 million, or 7.7%. Revenues decreased from fiscal year 2023 due to decrease in customer assessments of \$1.8 million. Revenues increased from fiscal year 2022 due to increased usage by non-domestic customers. Customer Assessments and Industrial Surcharges decreased in 2024 from 2023 by \$1.9 million and increased in 2023 from 2022 by \$2.8 million. Nonoperating Income increased by \$1.0 million in 2024 and 2023 increased by \$2.4 million over 2022. The increase in 2024 was primarily due to an increase interest income driven by an increase in long-term interest rates.

Operating Expenses are departmentalized within LRWRA. Expenses are categorized by salaries, benefits, supplies, contract services, vehicle maintenance, utilities, insurance, training, and administration and analyzed throughout the year. Nonoperating Expenses consist of interest expense, bond issuance costs, loss on disposal of capital assets, unrestricted loss on investments, and miscellaneous expenses.

Total Operating Expense increased by \$1.3 million, or 4.0%, in 2024. Total Operating Expense increased by \$3.4 million, or 11.6%, in 2023 from 2022. Operating Expense increased from fiscal year 2023 due to an increase in supplies expenses. Operating Expense increased from fiscal year 2022 due to an increase in salaries and benefit expenses.

Nonoperating Expense decreased by \$0.9 million, or 6.7%, in 2024 from 2023 and increased \$0.4 million, or 3.4%, in 2023 from 2022.

The Change in Net Position for fiscal year 2024 was \$6.1 million due primarily to Income Before Contributions of \$3.1 million and capital contributions and grants of \$3 million, as LRWRA continued receiving FEMA assistance related to the 2019 flood. Total Net Position – Ending increased by 2.4% compared to 2023. Change in Net Position for fiscal year 2023 was \$8.0 million due primarily to Income Before Contributions of \$5.1 million and capital contributions and grants of \$2.9 million. Total Net Position – Ending increased by 3.2% compared to 2022.

Additional information can be found on the Statements of Revenues, Expenses, and Changes in Net Position on Page 26 and Budgetary Comparison Schedule on Page 66.

***Capital Assets and Debt Administration***

The additions to LRWRA's wastewater system capital improvements were \$29.2 million in fiscal year 2024. The capital expenditures were incurred for collection system projects in the amounts of \$10.5 million, pumping/treatment for \$12.5 million, transportation for \$1.1 million, and all other \$5.1 million. Additional information can be found on Note 4 of this report.

The total long-term debt (less bond payable within one year) decreased by \$2.1 million in 2024. Additional information can be found on Note 6 of this report.

**Little Rock Water Reclamation Authority  
Management's Discussion and Analysis  
Year Ended December 31, 2024**

Moody's Investors Service assigned an Aa3 rating on the City of Little Rock (AR) Sewer Revenue Bonds.

<b>Long-Term Debt</b>	<b>2024</b>	<b>2023</b>	<b>2022</b>

Less debt payable, due within one year	(15,713,587)	(14,145,535)	(6,560,000)
Total long-term debt	<u>\$ 395,964,431</u>	<u>\$ 397,323,878</u>	<u>\$ 388,517,417</u>

***Economic Factors and Next Year's Budget and Rates***

LRWRA expects its customer base will continue to grow annually at a modest rate of less than 1.00%. In the 2025 Budget, LRWRA's revenue projects a slight decrease with the residential customers due to the annual decline in the Average Winter Consumption (AWC) and projects a slight increase with non-domestic customers. LRWRA evaluates the AWC for residential customers in the March/April timeframe. The AWC trend of domestic water consumption shows a small decline in usage over the past two years. LRWRA has one major customer that accounts for just over 1.00% of customer assessment revenues (see Schedule 13 – Ten Largest Customers).

The 10-year CIP set forth in the 2025 budget encompasses the most significant issues facing the Utility include: (1) continued National Pollution Discharge Elimination System (NPDES) permit compliance for all three wastewater treatment facilities; and (2) implementation of a fully integrated Asset Management/Preventive Maintenance Program; and (3) supporting growth driven by economic development in the Port of Little Rock and westward expansion of Little Rock, which will drive the capital improvement plans going forward. The 2025 Capital Improvement Plan provides funding for initiatives that afford LRWRA the opportunity to achieve its goals including replacement of aging infrastructure, construction of new facilities, and maintaining the working condition of LRWRA infrastructure and facilities. Total capital expenditures of \$69.6 million are planned for 2025. LRWRA estimates the capital improvements that have funding over the next six years will cost \$375.8 million.

With the most recent bond issue (2024 Bond Revenue Issue), Moody's Investors Service assigned LRWRA an Aa3 rating with a stable outlook to the 2024 Bond Revenue issue on the underlying rating of the City of Little Rock (AR) Sewer Revenue Bonds based on projected rate increases necessary to support future debt needs to maintain the system.

## Note 1: Nature of Operations and Summary of Significant Accounting Policies

### ***Reporting Entity***

The financial statements of Little Rock Water Reclamation Authority (LRWRA or Utility), a component unit of the City of Little Rock, conform to generally accepted accounting principles for state and local governments. The Utility provides wastewater sewer services for the greater Little Rock area. These services primarily consist of treatment and disposal of sewer water, inspection of sewer lines and construction of sewer treatment plants, rehabilitation projects, and spot repairs. The clear majority of the Utility's customers are residential; however, the Utility also services commercial businesses. The Utility had 72,101 and 71,181 customers at December 31, 2024 and 2023, respectively. LRWRA is financially accountable to the City of Little Rock, as the City's Board of Directors must approve any rate adjustments and debt issuances.

### ***Basis of Accounting***

LRWRA is an enterprise fund and its financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units.

As a component unit of the City of Little Rock, LRWRA has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Statement No. 34 established standards for external financial reporting for all state and local governmental entities, which includes a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows. It requires the classification of net position into three components: restricted, net investment in capital assets, and unrestricted.

Restricted – Consists of external constraints placed on net position imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Net investment in capital assets – Consists of capital and subscription assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets, and adding back unspent proceeds.

Unrestricted – Consists of net position that do not meet the definition of "restricted" or "invested in capital assets."

When both restricted and unrestricted resources are available for use on an expenditure, it is generally LRWRA's policy to use the restricted resources first. For projects funded by debt proceeds and other sources, the debt proceeds are used first.

As a component unit of the City of Little Rock, LRWRA applies the provisions of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. This statement requires that capital contributions to LRWRA be presented as a change in net position.

LRWRA's accounting and financial reporting practices are like those used for business enterprises; therefore, the accrual basis of accounting is utilized. Under this method, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred. Revenues from customer assessment, industrial surcharges, connection fees, and other sewer fees are reported as operating revenues. Revenues which stem from capital, financing, or investing-related activities are reported as nonoperating revenues. All expenses related to operating the sewer system, such as salaries, benefits, supplies, utilities, and administrative costs, are reported as operating expenses. Interest expense and financing costs are reported as nonoperating expenses.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

---

LRWRA utilizes a fiduciary fund to report assets that are held in a trustee or agency capacity for others and that cannot be used to support the general operations of the Utility. The Utility's fiduciary fund consists of the LRWRA Post Retiree Healthcare plan (OPEB Plan). The OPEB Plan is an employee benefit trust fund used to report the accumulation and use of resources to pay health insurance benefits for eligible retirees, as well as related liabilities for anticipated future benefits. The transactions and balances of the fiduciary fund are also reported using the economic resources measurement focus and the accrual basis of accounting. The OPEB Plan does not have a separate board and is administered by LRWRA.

***Cash and Cash Equivalents***

LRWRA considers both restricted and unrestricted demand deposits, certificates of deposit, money market funds, and cash management pools to be cash equivalents. In addition, all highly liquid investments, including repurchase agreements, with maturities of three months or less from the date of purchase are cash equivalents.

***Investments***

Investments in U.S. Treasury, agency, and instrumentality obligations with a remaining maturity of one year or less at time of acquisition and in nonnegotiable certificates of deposit are carried at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market prices.

Interest income includes dividend and interest income. Unrealized gains and losses are included as nonoperating income (expense) in the accompanying statements of revenues, expenses, and changes in net position.

***Accounts Receivable***

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Details of accounts receivable and the related valuation account as of December 31, 2024 and 2023 are more fully explained in Note 3.

***Inventory***

Materials, supplies, and fuel inventories are valued at cost.

***Restricted Assets***

Restricted assets consist of monies and other resources which are restricted legally as described below:

Bond Requirements – These assets include cash, investments, prepaids, and accrued interest held in various accounts as required by the bond indentures.

Capital Projects – These assets are restricted by bond indentures for designated capital projects and cannot be expended for any other purpose.

***Capital Assets and Capital Contributions***

Capital assets consist of property, plant, and equipment and include assets which have been contributed to LRWRA. Capital contributions primarily consist of sewer lines and pump stations constructed by private developers and individuals and donated to the Utility to operate and maintain that are recorded at certified acquisition costs. Capital assets are defined by LRWRA as assets with an initial, individual cost of at least \$5,000 and an estimated useful life more than one year. Depreciation is computed using the straight-line method of depreciation with estimated useful lives of 10 to 50 years for buildings and improvements, 5 to 25 years for machinery and equipment, and 50 years for collection systems (primarily sewer lines).

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

---

Subscription assets, which are a type of capital asset, are initially recorded at the initial measurement of the subscription liability, plus subscription payments made at or before the commencement of the subscription-based information technology arrangement (SBITA) term, less any SBITA vendor incentives received from the SBITA vendor at and certain payments made before the commencement of the SBITA term, plus capitalizable initial implementation costs. Subscription assets are amortized on a straight-line basis over the shorter of the SBITA term or the useful life of the underlying IT asset.

***Capital and Subscription Asset Impairment***

The Utility evaluates capital and subscription assets for impairment whenever events or circumstances indicate a significant, unexpected decline in the service utility of a capital asset has occurred. If a capital or subscription asset is tested for impairment and the magnitude of the decline in service utility is significant and unexpected, the capital asset historical cost and related accumulated depreciation are adjusted proportionately such that the net decrease equals the impairment loss.

No asset impairment was recognized during the years ended December 31, 2024 and 2023.

***Deferred Outflows/Inflows of Resources***

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Utility has three items that qualify for reporting in this category:

- Deferred amounts on bond refunding – A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Deferred amounts on pension funding – The contributions made to the pension plan after the measurement date are deferred and recognized in the following fiscal year. The difference between actual and expected experience, and the change in proportion, and the net difference between projected and actual earnings on pension plan investments are deferred and amortized over the average remaining service life of all participants in the pension plan and recorded as a component of pension expense beginning with the period in which they incurred.
- Deferred amounts on OPEB – The difference in assumption changes in the OPEB plan, difference in expected and actual experience, the change in assumptions, and the net difference between projected and actual earnings on OPEB assets are deferred and amortized over the average remaining service life of all participants in the OPEB plan.

In addition to liabilities, the statement of net financial position and or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The Utility has two items that qualify for reporting in this category.

- Deferred amounts on pension funding – The differences between expected and actual experience and differences between employer contributions and proportionate share are deferred and amortized over the average remaining service life of all participants in the pension plan and recorded as a component of pension expense beginning with the period in which the difference occurred.
- Deferred amounts on OPEB – The differences between expected and actual experiences and changes in assumptions are deferred and amortized over the average remaining service life of all participants in the OPEB plan and recorded as a component of OPEB expense beginning with the period in which the difference occurred.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

---

***Compensated Absences***

Employees earn Personal Time Off (PTO) as the only paid personal leave, as it covers time away from the workplace for vacation, personal time, illness, etc. There is a “use or lose” policy for any balance over 300 hours at December 31 of each year. Employees accumulate PTO each pay period based on length of service. The rate of accrual for any given year in the first 12 months is 18 days, years 1 through 5 accrue 20 days, 6 through 15 accrue 25 days, 16 through 25 accrue 30 days, and 25 years and up accrue 35 days. Net changes in the liability for compensated absences are summarized in Note 7. The Utility’s policy is that the leave earned first is used before leave used in subsequent periods.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

***Change in Accounting Principle***

In June 2022, the GASB issued GASB Statement No. 101, *Compensated Absences*. The new accounting guidance updates the recognition and measurement guidance for compensated absences under a unified model.

Specifically, the new standard clarifies that a liability should be recorded for compensated absences that are more likely than no to be paid or otherwise settled. Additionally, it amends certain existing disclosure requirements.

The Utility adopted the standard on January 1, 2024 and applied it retrospectively to the earliest period presented. There was no effect on beginning net position as of January 1, 2023.

**Note 2: Cash and Cash Equivalents and Investments – Utility**

A summary of cash, cash equivalents, and investments per the statements of net position as of December 31, 2024 and 2023 follows:

	<b>December 31, 2024</b>			
	<b>Cash</b>	<b>Cash Equivalents</b>	<b>Total Cash and Cash Equivalents</b>	<b>Investments</b>

Total	\$ 19,309,668	\$ 7,331,033	\$ 26,640,701	\$ 61,342,862

***Deposits***

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Utility's deposit policy for custodial credit risk requires compliance with the provisions of state law and City of Little Rock statute.

City statute requires that deposits in financial institutions be collateralized with federal depository insurance and bonds or other interest-bearing securities of the United States, the State of Arkansas, Arkansas political subdivisions, or agencies or instrumentalities of these entities at 104%.

The Utility had deposits with financial institutions of \$19,879,105 at December 31, 2024 and \$23,881,544 at December 31, 2023. As of December 31, 2024 and 2023, the Utility's bank balance was fully insured and collateralized by the pledging financial institution.

***Investments***

Arkansas statute (AR § Code 19-1-501) authorizes the Utility to invest in eligible investment securities such as: (1) direct or guaranteed obligations of the United States that are backed by the full faith and credit of the U.S. Government; (2) A direct obligation of an agency, instrumentality, or government-sponsored enterprise created by act of the United States Congress and authorized to issue securities or evidences of indebtedness that is guaranteed for repayment by the U.S. Government; and (3) a bond or other debt of the state, a school district, a county government, a municipal government or an authority of a governmental entity that: (A) is issued for an essential governmental purpose or is guaranteed by a state agency; and (B) has a debt rating from a nationally recognized credit rating agency of "A" or better at the time of purchase. None of LRWRA's investments owned at December 31, 2024, were subject to custodial credit risk.

Cash equivalents and investments at December 31, 2024 and 2023 consisted of Federated Treasury Obligations (publicly traded government money market mutual fund held by LRWRA's bond trustee or short-term U.S. Treasury securities with a stable net asset value of one dollar) and U.S. Government Obligations stated at values of \$74,521,795 and \$68,673,894, respectively. Net unrealized gain for each of the years ended December 31, 2024 and 2023 was \$127,510 and \$204,994 respectively.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

At of December 31, 2024 and 2023, the Utility had the following investments and maturities:

<b>December 31, 2024</b>				
<b>Investment Type</b>	<b>Fair Value</b>	<b>Less than 1 year</b>	<b>1–5 years</b>	<b>Credit Rating</b>
<b>Cash Equivalents and Investments</b>				
Cash equivalents

\* Investment is carried at amortized costs.

**Interest Rate Risk**

Arkansas statute (AR Code § 19-1-504) limits the eligible investment securities to having a maturity of no longer than five (5) years from the date of acquisition unless, as documented at the time of acquisition, the investment is to fund or support a specific purpose and there are no expectations that the investment will be sold before maturity.

**Credit Risk**

Credit risk is the risk that the issuer or other counterparty will not fulfill its obligation. The Utility manages its credit risk by investing exclusively in government-issued treasuries and agencies. All the Utility's investments at December 31, 2024 and 2023 are insured or registered and held in the Utility's name.

***Fair Value Measurement***

LRWRA categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation input used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

LRWRA has the following recurring fair value measurements as of December 31, 2024:

- Federated Treasury Obligations of \$5.9 million are valued using quoted market prices (Level 1 inputs).
- U.S. Treasury Securities (Federal Farm Credit Bank and Federal Home Loan) of \$7.1 million are valued using a matrix pricing model (Level 2 inputs).

LRWRA had the following recurring fair value measurements as of December 31, 2023:

- Federated Treasury Obligations of \$7.3 million are valued using quoted market prices (Level 1 inputs).
- U.S. Treasury Securities (Federal Farm Credit Bank and Federal Home Loan) of \$7.0 million are valued using a matrix pricing model (Level 2 inputs).

**Note 3: Accounts and Grants Receivable**

Accounts receivable at December 31, 2024 and 2023 consisted of the following:

	<u>2024</u>	<u>2023</u>
Trade receivables – billed, current	\$ 2,409,989	\$ 2,365,977
Trade receivables – unbilled	4,099,611	4,957,868
Trade receivables, past due	1,388,197	963,647
Grants receivable	<u>369,244</u>	<u>1,441,039</u>
Total	<u>8,267,041</u>	<u>9,728,531</u>
Allowance for uncollectibles, beginning of year	(1,716,279)	(1,521,677)
Provision for bad debt expense	<u>(983,110)</u>	<u>(194,602)</u>
Allowance for uncollectibles, end of year	<u>(2,699,389)</u>	<u>(1,716,279)</u>
Accounts receivable, net of allowance for uncollectibles	<u>5,567,652</u>	<u>8,012,252</u>
Current accounts receivable	<u><u>\$ 5,567,652</u></u>	<u><u>\$ 8,012,252</u></u>

2024B	1.25%	2057	20,000	-
Total			<u>\$ 238,093,018</u>	<u>\$ 7,008,587</u>

The Arkansas Natural Resource Commission (ARNC) currently administers federal and state programs that provided aid through loans and grants for water and wastewater projects. These revenue bonds (Revolving Loan Funds – RLFs) are issued to LRWRA for financing construction costs for extensions, betterments, and improvements to the sewer system.

**2007B Sewer Revenue Bond**

The Series 2007B Bond was issued in July 2007 in the amount of \$18,000,000 to finance the construction of extensions, betterments, and improvements to the sewer collection system within the City of Little Rock and designated collection system projects and to pay the cost of issuing the 2007B Bond. This bond is a special obligation through the ANRC with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal and interest payments are due semiannually on April 15 and October 15. Due to the COVID-19 pandemic, principal payments were suspended until April 2024, and there will be three interest-free years of principal payments 2030 through 2032. The final payment is scheduled for October 2032.

**2009A Sewer Revenue Bond**

The Series 2009A Bond was issued in March 2009 in the amount of \$8,000,000 to finance the improvements to the Arch Street Pump Station and to pay the cost of issuing the 2009A Bond. This bond is a special obligation through the ANRC with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal and interest payments are due semiannually on April 15 and October 15. Due to the COVID-19 pandemic, principal payments were suspended until April 2024, and there will be three interest-free years of principal payments October 2032 through April 2035. The final payment is scheduled for April 2035.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

---

**2014 Sewer Refunding Revenue Bond**

The Series 2014 Bond was issued in October 2014 in the amount of \$11,980,000 and refunded the 1999 Sewer Revenue Bond and advance fund the 2005 Sewer Revenue Bond. This bond is a special obligation of the Issuer with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal and interest payments are due semiannually on May 1 and November 1. The final payment is scheduled for May 2025.

**2015 Sewer Refunding Revenue Bond**

The Series 2015 Bond was issued in March 2015 in the amount of \$160,070,000 and refunded the 1996, 2004A, 2004B, 2004C, and advance funded the 2007A and 2007C Sewer Revenue Bond. These bonds are special obligations of the Issuer with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal and interest payments are due semiannually on April 1 and October 1. The final payment is scheduled for October 2037.

**2016B Sewer Refunding Revenue Bond**

The Series 2016B Bond was issued in November 2016 in the amount of \$18,585,000 and refunded the 2008 and 2009B Sewer Revenue Bonds. These bonds are special obligations of the Issuer with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal and interest payments are due semiannually on June 1 and December 1. The final payment is scheduled for December 2038.

**2017 Sewer Revenue Bond**

The Series 2017 Bond was issued in October 2017 in the amount of \$10,835,000 to finance the Fourche Creek WRF Phase III Rehabilitation improvements to the facility and to pay the cost of issuing the 2017 Sewer Bond. This bond was a special obligation of the issuer with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal payments are due annually on October 1 and interest payments are due semiannually on April 1 and October 1. The final payment is scheduled for October 2047.

**2020A Sewer Revenue Bond**

The Series 2020A Bond was issued in February 2020 in the amount of \$51,400,000 to finance the construction of extensions, betterments, and improvements to the sewer collection system, and to pay the cost of issuing the 2020A Bond. Draws totaled \$7,928,071 as of December 31, 2024. This bond has a special obligation through ANRC with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal and interest payments are due annually on April 15 and October 15 starting in 2024. The final payment is scheduled for October 2053.

**2020B Sewer Refunding Bond**

The Series 2020B Bond was issued in October 2020 in the amount of \$22,850,000 and advance funded the 2012 Sewer Revenue Bond. These bonds are special obligations of the Issuer with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal is due annually on August 1 starting in 2024 and interest payments are due semiannually on February 1 and August 1 starting in 2021. The final payment is scheduled for August 2042.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

---

**2020C Sewer Revenue Bond**

The Series 2020C Bond was issued in October 2020 in the amount of \$7,500,000 to finance repairs to the sewer collection system caused by the 2019 flooding event and to pay the cost of issuing the 2020C Bond. Draws totaled \$2,378,894 as of December 31, 2024. This bond has a special obligation through ANRC with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal and interest payments are due annually on April 15 and October 15 starting in October 2024. The final payment is scheduled for October 2044.

**2021 Sewer Revenue Refunding Bond**

The Series 2021 Bond was issued in September 2021 in the amount of \$107,970,000 and partially advance refunded the 2015 Sewer Revenue Bond. \$109,209,465 was deposited into an irrevocable trust with an escrow agent for all future debt payments on a portion of the 2015 series bonds. As a result, the 2015 series bonds are considered to be partially defeased, and the liability for that portion of the bonds has been removed from the statement of net position. These bonds are special obligations of the Issuer with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. The bond is secured by the net revenues available for debt service of the Utility. Principal is due annually on October 1 starting in 2025, and interest payments are due annually on October 1 starting in 2022. The final payment is scheduled for October 2037. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$6,061,492. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense through the year 2037 using the effective-interest method.

**2023 Sewer Revenue Bond**

The 2023 Sewer Revenue Refunding Bond was issued in October 2023 in the amount of \$169,993,949 in exchange for the 2013 Sewer Revenue Bond, 2016A Sewer Revenue Bond, 2018 Sewer Revenue Bond and 2019 Sewer Revenue Bond, which finance the costs of betterments and improvements to the Utility's water reclamation system. The bond is secured by the net revenues available for debt service of the Utility. Principal and interest payments are due semiannually on April 15 and October 15. The final payment is scheduled for October 2053. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,294,722. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense through the year 2039 using the effective-interest method.

**2024A Sewer Revenue Bond**

The Series 2024A Bond was issued in May 2024 in the amount of \$59,600,000 to finance the construction of extensions, betterments, and improvements to the sewer collection system, and to pay the cost of issuing the 2024A Bond. Draws totaled \$4,598,875 as of December 31, 2024. The remaining draws will occur as construction projects are completed. This bond has a special obligation through ANRC with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. Principal and interest payments are due semiannually on April 15 and October 15. The final payment is scheduled for October 2057.

**2024B Sewer Revenue Bond**

The Series 2024B Bond was issued in October 2024 in the amount of \$5,400,000 to finance the construction of extensions, betterments, and improvements to the sewer collection system, and to pay the cost of issuing the 2024B Bond. Draws totaled \$20,000 as of December 31, 2024. The remaining draws will occur as construction projects are completed. This bond has a special obligation through ANRC with permission from the City of Little Rock, Arkansas, payable solely from the net revenues of the sewer system. Principal and interest payments are due semiannually on April 15 and October 15. The final payment is scheduled for October 2057.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

In addition to the \$411,678,018 balance of Sewer Revenue Bonds outstanding at December 31, 2024, an additional \$64,665,803 can, as previously described, be drawn in fulfillment of current bond issues 2020A, 2020C, 2024A and 2024B for a total Sewer Revenue Bond indebtedness of \$476,343,821.

The 2007B, 2009A, 2020A, 2020C, 2023, 2024A and 2024B Series Sewer Revenue Bonds are subordinate to the 2014, 2015, 2016B, 2017, 2020B, and 2021 Series Revenue Bonds.

The net revenue available for debt service was \$36,338,209 and \$38,267,008 in 2024 and 2023, respectively, and the average yearly outstanding debt was \$15,913,896 and \$17,716,041, respectively.

During prior years, the Utility defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the Utility's financial statements. At December 31, 2024 and 2023, \$95,185,000 of bonds outstanding is considered defeased.

The annual requirements to amortize sewer revenue bond indebtedness outstanding and scheduled, including interest, as of December 31, 2024 are as follows:

Year Ending December 31,	Revenue Bonds		Revenue Bonds – Direct Placement		Total
	Principal	Interest	Principal	Interest	
2025	\$ 8,705,000	\$ 4,176,153	\$ 7,008,587	\$ 5,118,711	\$ 25,008,451
2026	10,735,000	3,849,696	7,170,324	4,956,974	26,711,994
2027	11,025,000	3,552,392	7,335,828	4,791,470	26,704,690
2028	11,260,000	3,315,100	7,632,403	4,649,127	26,856,630
2029	11,545,000	3,010,109	7,807,273	8,050,501	30,412,883
2030–2034	67,300,000	11,126,451	38,149,020	18,455,746	135,031,217
2035–2039	44,480,000	3,783,768	37,179,291	15,214,256	100,657,315

2045–2049	1,645,000	112,219	44,626,318	6,042,443	52,425,980
2050–2054	-	-	39,620,216	1,590,135	41,210,351
2050–2054	-	-	541,017	11,895	552,912
Total	<u>\$ 173,585,000</u>	<u>\$ 33,713,776</u>	<u>\$ 238,093,018</u>	<u>\$ 79,766,784</u>	<u>\$ 525,158,578</u>

**Notes From Direct Placements**

The Utility's outstanding notes from direct placements of \$238,093,018 contain a provision that in an event of default, the bondholder may apply in proper action to a court for the appointment of a receiver to administer the Utility on behalf of the bondholder with the power to charge and collect rates sufficient to provide for the payments of the expenses of operation and to pay the bond interest and principal. These direct placements are associated with Revolving Loan Funds administered through the ANRC.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

**Note 7: Compensated Absences**

Net changes in the liability for compensated absences for the years ended December 31, 2024 and 2023 are as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>	<u>Amount Due Within One Year</u>
2024	<u>\$ 1,282,579</u>	<u>\$ 78,287</u>	<u>\$ -</u>	<u>\$ 1,360,866</u>	<u>\$ 1,225,724</u>
2023	<u>\$ 1,313,168</u>	<u>\$ -</u>	<u>\$ 30,589</u>	<u>\$ 1,282,579</u>	<u>\$ 1,282,579</u>

\*Additions and retirements are shown net

**Note 8: Litigation**

***Sierra Club***

The Little Rock Water Reclamation Authority Commission (LRWRC), formerly known as "Little Rock Sanitary Sewer Committee," was a defendant, along with the City of Little Rock, in a lawsuit filed in the U.S. District Court on January 13, 2000, by the Sierra Club. The plaintiff alleged violations of the *Clean Water Act* and the *Resource Conservation and Recovery Act* for sanitary sewer overflows (SSOs) and sought injunctions for the alleged violations including penalties. LRWRC and the plaintiff entered into a written settlement agreement releasing LRWRC's liability for any alleged violations up to the settlement agreement dated September 12, 2001.

A judgment approving this settlement was filed on November 16, 2001 subject to an award of the plaintiff's statutory attorneys' fees, which were awarded on December 13, 2002 and paid in full in 2003. There are no further sums due to the plaintiff related to this litigation.

Pursuant to the settlement agreement, the Court retained jurisdiction for the purpose of enforcing the provisions of the agreement. Under these provisions, LRWRC is required to follow certain reporting and notice and maintenance procedures and to make improvements to the collection system to reduce sanitary sewer overflows. These requirements are specified in the settlement agreement, and the schedules for developing, adopting, and implementing the necessary programs and completing the improvements within agreed-upon deadlines are set forth in a separate System Evaluation and Capacity Assurance Plan (SECAP).

Management believes LRWRA is in compliance with the provisions of the settlement agreement and has satisfied all outstanding requirements of the agreement as of December 31, 2023. In a letter dated March 28, 2024, the Sierra Club confirmed that LRWRA "has fulfilled the requirements of the Settlement Agreement." The Sierra Club commended "LRWRA's commitment to both the letter and the spirit of the Settlement Agreement."

***ADEQ***

On March 9, 2006, staff representatives of Arkansas Department of Environmental Quality (ADEQ) and LRWRA entered into a Consent Administrative Order (CAO) addressing certain issues including, but not limited to, maintenance practices, secondary treatment bypasses at the Adams Field Water Reclamation Facility, administrative requirements, design and performance provisions, monitoring, measurement and program modifications, a sanitary sewer overflow plan, a system evaluation and capacity assurance plan, audits, communications, and financial penalties for failure of compliance with performance and specific project deadlines. Such penalties for noncompliance range from \$100 to \$500 per day, depending upon the duration of the noncompliance.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

---

On September 6, 2011, Amendment No. 1 to the CAO was approved by ADEQ, the Sierra Club, and LRWRA, extending the deadline for the obligations under the settlement agreements until December 31, 2018. Amendment No. 1 also required LRWRA submit to ADEQ a schedule of activities necessary to maintain compliance with the updated SECAP previously submitted to ADEQ. The updated SECAP was completed by RJN Group in November 2010.

On April 15, 2015, Amendment No. 2 to the CAO was approved. ADEQ, and the Sierra Club granted LRWRA an extension of the CAO deadline to December 31, 2023. On March 18, 2024, ADEQ issued a letter to LRWRA stating that the requirements of the CAO had been met.

LRWRA completed all remaining improvements and requirements by the December 31, 2023 deadline. The CAO terminated on March 19, 2024. The various capital projects related to these proceedings can be seen in greater detail within LRWRA's annual report located at <http://www.lrwra.com/capitalprojects>.

## **Note 9: Other Commitments and Contingencies**

### ***Commitments***

The Utility had commitments totaling approximately \$61.3 million at December 31, 2024 for the expansion of plant capacity and collection system improvements.

### ***Claims and Litigation***

The Utility is currently involved in various claims and pending legal actions related to matters arising from the ordinary conduct of business. The Utility administration believes the ultimate disposition of the actions will not have a material effect on the financial statements of the Utility.

## **Note 10: Pension Benefits**

### ***Defined Contribution Plan***

LRWRA offers a voluntary 401(a) qualified pension plan to all full-time employees. LRWRA's and the employee's percent contribution is calculated on an employee's base salary and years of service for full-time employees.

The pension expense is recorded at the amount of LRWRA's required contribution, determined in accordance with the terms of the plan. The total employer contributions were \$410,786 and \$475,002 in 2024 and 2023, respectively.

The plan was established with a resolution passed by then Little Rock Sanitary Sewer Committee.

On January 17, 2018, the LRWRC passed Resolution 2018-03 to establish the LRWRA Retirement Plans Committee (LRWRARPC), adopt the LRWRARPC Charter, and delegate specific administrative duties to the LRWRARPC. Any changes in contribution rates would require LRWRC approval. Any amendments to the plan would be approved by the LRWRAPC. In July 2018, the LRWRAPC adopted a plan amendment to eliminate the two-year eligibility requirement and add 401(a) matching contribution schedules for the CEO, exempt 1 employee and exempt 2 employees. The LRWRAPC works with two entities, ICMA-RC and First Security Bank-Trust and Wealth Management, in administering the 401(a) plan.

**Arkansas Public Employees Retirement System (APERS)**

**Summary of Significant Accounting Policies**

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Arkansas Public Employee Retirement System (APERS) and additions to/deductions from APERS fiduciary net position have been determined on the same basis as they are reported by APERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**General Information about the Pension Plan**

Plan Description: The following brief description of the Arkansas Public Employees Retirement System (APERS or System) is provided for general information purposes only. Participants should refer to Arkansas Code Annotated, Title 24 for more complete information.

APERS is a cost-sharing multiple-employer defined benefit plan which covers all state employees who are not covered by another authorized plan. The plan was established by the authority of the Arkansas General Assembly with the passage of Act 177 of 1957. The costs of administering the plan are paid out of investment earnings.

The general administration and responsibility for the proper operation of the System is vested in the nine members of the Board of Trustees of the Arkansas Public Employees Retirement System (Board). Membership includes three state and three non-state employees, all appointed by the Governor, and three ex-officio trustees, including the Auditor of the State, the Treasurer of the State and the Director of the Department of Finance and Administration.

Benefits Provided: Benefit provisions are set forth in Arkansas Code Annotated, Title 24, Chapters 5 and 6 and may only be amended by the Arkansas General Assembly. APERS provides retirement, disability, and death benefits. Retirement benefits are determined as a percentage of the member's highest three-year average compensation times the member's years of service. The percentage used is based upon whether a member is contributory or noncontributory as follows:

Contributory, prior to July 1, 2005	2.07%
Contributory, on or after July 1, 2005 but prior to July 1, 2007	2.03%
Contributory on or after July 1, 2007	2.00%
Noncontributory	1.72%

Members are eligible to retire with a full benefit under the following conditions:

- At age 65 with 5 years of service,
- At any age with 28 years actual service,
- At age 60 with 20 years of actual service if under the old contributory plan (prior to July 1, 2005), or
- At age 55 with 35 years of credited service for elected or public safety officials.

Members may retire with a reduced benefit at age 55 with at least five years of actual service at age 55 or at any age with 25 years of service.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

Members are eligible for disability benefits with five years of service. Disability benefits are computed as an age and service benefit, based on service, and pay at disability. Death benefits are paid to a surviving spouse as if the member had five years of service, and the monthly benefit is computed as if the member had retired and elected the Joint and 75% Survivor option. A cost-of-living adjustment of 3% of the current benefit is added each year.

Contributions: Contribution requirements are set forth in Arkansas Code Annotated, Title 24, Chapter 4. The contributions are expected to be sufficient to finance the costs of benefits earned by members during the year and make a level payment that, if paid annually over a reasonable period of future years, will fully cover the unfunded costs of benefit commitments for services previously rendered (A.C.A. 24-2-701)(a)). Members who began service prior to July 1, 2005 are not required to make contributions to APERS.

Members who began service on or after July 1, 2005 are required to contribute 5% of their salary. Employers are required to contribute at a rate established by the Board of Trustees of APERS based on an actuary's determination of a rate required to fund the plan (A.C.A. 24-2-701(c)(3)). For 2024 and 2023, employers contributed 15.32% of compensation. Contributions to the pension plan from LRWRA were \$2,290,976 and \$2,261,113 for the years ended December 31, 2024 and 2023, respectively.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At December 31, 2024 and 2023, LRWRA reported a liability of \$16,378,805 and \$19,405,717, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024 and 2023, respectively, and the total pension liability used to calculate the net pension liability was determined by actuarial valuations as of those dates. LRWRA's proportion of the net pension liability was based on LRWRA's contributions to the pension plan relative to the contributions of all participating APERS members. At June 30, 2024, LRWRA's proportion was 0.65827984%, which was a decrease of 0.00762527% from its proportion measured as of June 30, 2023 of 0.66590511%.

For the years ended December 31, 2024 and 2023, LRWRA recognized pension expense of \$2,440,309 and \$3,139,911, respectively. At December 31, 2024 and 2023, LRWRA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>2024</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 635,628	\$ 669,654
Changes in proportion and differences between employer contributions and proportionate share	3,744	437,081
Changes of assumptions	570,794	-
Net difference between projected and actual earnings on pension plan investments	475,143	-
Contributions subsequent to the measurement date	1,205,301	-
Total	<u>\$ 2,890,610</u>	<u>\$ 1,106,735</u>

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

	<b>2023</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 1,095,412	\$ 106,607
Changes in proportion and differences between employer contributions and proportionate share	8,432	570,043
Changes of assumptions	912,309	-
Net difference between projected and actual earnings on pension plan investments	2,415,315	-
Contributions subsequent to the measurement date	1,119,391	-
Total	<u>\$ 5,550,859</u>	<u>\$ 676,650</u>

The \$1,205,301 reported as deferred outflows of resources at December 31, 2024 related to pensions resulting from LRWRA's contributions subsequent to measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ending December 31</b>	
2025	\$ (368,701)
2026	2,082,350
2027	(743,090)
2028	(391,985)
	<u>\$ 578,574</u>

Actuarial Assumptions: The total pension liability, net pension liability, and certain sensitivity information was determined by an actuarial valuation as of June 30, 2024. The significant assumptions used in the valuation and adopted by the APERS Board of Trustees were as follows:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level of % of Payroll, Closed
Remaining Amortization Period	16 years
Actuarial Assumptions	
Investment rate of return	7.00%, net of investment administrative expenses
Discount Rate	7.00%
Salary Increases	3.25–9.85% including inflation
Inflation	2.50% price inflation, 3.25% wage inflation
Mortality Table	Based on RP-2006 Healthy Annuitant benefit-weighted generational mortality tables for males and females. Mortality rates are multiplied by 135% for males and 125% for females and are adjusted for fully generational mortality improvements using Scale MP-2017.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major class included in the System's target allocation as of June 30, 2024 are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-Term Expected Real Rate of Return</b>
Broad domestic equity	39%	5.03%
International equity	17%	6.34%
Real assets	16%	4.51%
Private equity	5%	9.00%
Hedge funds	2%	3.63%
Domestic fixed	21%	3.38%
Total	100%	
Total real rate of return		5.00%
Plus: price inflation – actuary assumption		2.50%
Net expected return		7.50%

Discount Rate: A single discount rate of 7% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the proportionate share of the net pension liability using the discount rate of 7%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6%) or 1-percentage-point higher (8%) than the current rate:

<b>Sensitivity of Discount Rate</b>		
<b>1% Lower 6.00%</b>	<b>Discount Rate 7.00%</b>	<b>1% Higher 8.00%</b>
\$ 27,948,145	\$ 16,378,805	\$ 6,840,737

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the separately issued APERS financial report located at <http://www.apers.org/publications>.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

Actuarial Assumptions: The total pension liability, net pension liability, and certain sensitivity information were determined by an actuarial valuation as of June 30, 2023. The significant assumptions used in the valuation and adopted by the APERS Board of Trustees were as follows:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level of % of Payroll, Closed
Remaining Amortization Period	23 years
Actuarial Assumptions:	
Investment rate of return	7.00%, net of investment administrative expenses
Discount Rate	7.00%
Salary Increases	3.25–9.85% including inflation
Inflation	2.50% price inflation, 3.25% wage inflation
Mortality Table	Based on RP-2006 Healthy Annuitant benefit-weighted generational mortality tables for males and females. Mortality rates are multiplied by 135% for males and 125% for females and are adjusted for fully generational mortality improvements using Scale MP-2017.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major class included in the System's target allocation as of June 30, 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Broad domestic equity	37%	6.19%
International equity	24%	6.77%
Real assets	16%	3.34%
Absolute return	5%	3.36%
Domestic fixed	18%	1.79%
Total	100%	
Total real rate of return		4.94%
Plus: price inflation – actuary assumption		2.50%
Net expected return		7.44%

Discount Rate: A single discount rate of 7% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the proportionate share of the net pension liability using the discount rate of 7%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6%) or 1-percentage-point higher (8%) than the current rate:

<b>Sensitivity of Discount Rate</b>		
<b>1% Lower 6.00%</b>	<b>Discount Rate 7.00%</b>	<b>1% Higher 8.00%</b>
\$ 30,930,967	\$ 19,405,717	\$ 9,910,002

**Note 11: Other Postemployment Benefits (OPEB)**

***Plan Description***

LRWRA's single-employer defined benefit postemployment healthcare plan, Little Rock Water Reclamation Authority Healthcare Plan (LRWRAHP), provides medical benefits to eligible retired employees and their beneficiaries. Employees are eligible for retiree medical coverage, including dental, prescription drug, and vision benefits, if they are eligible for retirement plan benefits under APERS. Retiree Medical Benefits cease at age 65 or upon the retiree signing a waiver of coverage.

Participants included in the actuarial valuation include retirees and survivors, and active employees who may be eligible to participate in the plan upon retirement. Arkansas statute (ACT 664) provides that any Utility employee vested in the retirement plan and 55 years of age or older may continue to receive the same medical benefits as active employees after retirement provided either the Utility or retiree pays both the employer and employee contributions to the healthcare plan. LRWRA is required to pay actual claims.

The LRWRC assigns authority to the CEO for any changes to the benefit provisions of the plan. This postemployment healthcare plan is administered by Regions Bank Trust Department. LRWRAHP does not issue a stand-alone financial report.

For inquiries relating to the plan, please contact the Little Rock Water Reclamation Authority, Finance Department (In Care of LRWRAHP), 11 Clearwater Dr., Little Rock, Arkansas 72204.

***Summary of Significant Accounting Policies***

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of LRWRAHP and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, LRWRAHP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and certificates of deposit, which are reported at cost.

***Funding Policy***

Starting in 2011, LRWRA's healthcare has become a fully insured employer-sponsored health plan that pays a premium to the insurance carrier from a self-funded plan. Premium rates are set annually and review by the LRWRC in conjunction with annual budget approval process. LRWRA's budget goal is that total benefits should be no more than 35% of total salaries each year. As a part of benefits, the health insurance plan is adjusted accordingly.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

***LRWRA Post Retiree Healthcare Plan (GASB Statement No. 74 and No. 75)***

Since the LRWRAHP does not present separate financial statements, LRWRA is presenting the following disclosures below in accordance with GASB Statement No. 74 (LRWRAHP) and No. 75 (LRWRA):

LRWRAHP is supported by employer contributions. Using the Projected Unit Credit Cost Method, contributions are determined such that contributions will fund the projected benefits over a closed 30-year funding period.

The net OPEB liability is measured as of December 31, 2024 in LRWRA's financial statements using an actuarial valuation as of December 31, 2024 as the total OPEB liability, less the amount of the plan's fiduciary net position. A single discount rate of 4.28% and 4.00% was used to measure the total OPEB liability as of December 31, 2024 and 2023, respectively. This single discount rate was based on an expected rate of return on OPEB plan investments. The projection of cash flows used to determine the discount rate assumed that the Utility contributions will be made at rates equal to the actuarially determined contribution rates.

The components of the December 31, 2024 net OPEB liability of LRWRA as determined by an actuarial valuation as of that date were as follows:

	<u><b>2024</b></u>
Total OPEB liability – ending	\$ 7,665,331
Plan fiduciary net position – ending	<u>1,296,985</u>
Net OPEB Liability – ending	<u><u>\$ 6,368,346</u></u>
Plan fiduciary net position as % of total OPEB liability	16.92%

The components of the December 31, 2023 net OPEB liability of LRWRA as determined by an actuarial valuation as of that date were as follows:

	<u><b>2023</b></u>
Total OPEB liability – ending	\$ 7,858,039
Plan fiduciary net position – ending	<u>1,250,289</u>
Net OPEB Liability – ending	<u><u>\$ 6,607,750</u></u>
Plan fiduciary net position as % of total OPEB liability	15.91%

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

**Changes in the Net OPEB Liability**

	Increase (Decrease)

Sensitivity of the net OPEB liability to change in the discount rate: The following presents the net OPEB liability of LRWRA, as well as what LRWRA's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

<u>December 31, 2024</u>	<u>1% Lower 3.38%</u>	<u>Current 4.38%</u>	<u>1% Higher 5.38%</u>
Utility's net OPEB liability	<u>\$ 7,325,247</u>	<u>\$ 6,368,346</u>	<u>\$ 5,541,158</u>

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates: The following presents the net OPEB liability of LRWRA, as well as what LRWRA's net OPEB liability would be if calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

<b>December 31, 2024</b>	<b>1% Lower Rates</b>	<b>Current Rates</b>	<b>1% Higher Rates</b>
Utility's net OPEB liability	<u>\$ 5,461,660</u>	<u>\$ 6,368,346</u>	<u>\$ 7,438,475</u>

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

The Utility recognized OPEB expense of \$580,696 and \$506,967 for the years ended December 31, 2024 and 2023, respectively. Below is a table providing the deferred inflows and outflows of resources related to OPEB from the following sources as of December 31:

	<b>2024</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 1,587,367	\$ 917,285
Changes of assumptions	1,441,915	1,561,473
Net difference between projected and actual earnings on OPEB assets	<u>68,726</u>	<u>-</u>
Total	<u>\$ 3,098,008</u>	<u>\$ 2,478,758</u>

	<b>2023</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 1,540,868	\$ 1,115,909
Changes of assumptions	1,480,748	1,492,388
Net difference between projected and actual earnings on OPEB assets	<u>114,817</u>	<u>4,722</u>
Total	<u>\$ 3,136,433</u>	<u>\$ 2,613,019</u>

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB as of December 31, 2024 will be recognized in OPEB expense as follows for the years ended December 31:

2025	\$ 71,003
2026	71,003
2027	71,003
2028	71,004
Thereafter	<u>335,237</u>
	<u>\$ 619,250</u>

Actuarial Assumptions at December 31, 2024

Actuarial Cost Method: Entry Age Normal

Participation: Active members will elect the same retiree medical coverage as they elected with active.

Mortality: Pri-2012 Total Dataset Mortality with Improvement Scale MP-2021.

Discount Rate: 4.28% per annum. The plan is partially funded in an irrevocable trust maintained by the plan sponsor.

Inflation: 3.5% per annum.

Assumed Utilization: 85% of eligible future retirees are assumed to elect plan benefits.

Healthcare (HC) Cost Trend Rate: Covered medical expenses are assumed to increase by the following percentages:

<u>Year</u>	<u>HC Trend Rate</u>
2025	7.0%
2026	6.5%
2027	6.0%
2028	5.5%
2029	5.0%
2030 and later	4.5%

Membership Data: The membership data used in the calculation is based on data as of December 31, 2024. The information is summarized for primary members (not dependents).

<u>Status</u>	<u>Number</u>	<u>Average Age</u>	<u>Average Years of Service</u>
Active members (elected medical and employed prior to 7/1/2017)	105	48.0	16.8
Active members (elected medical and employed after 7/1/2017)	86	38.3	2.7
Retired members under Age 65 (elected benefits)	21	64.9	N/A

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

Employer-Paid Medical Premiums: The retiree medical plan is self-funded. Employer-paid monthly premiums are set yearly, with 2024 ranging from \$290 to \$1,106, depending on which healthcare plan selected and type of coverage (retiree only, retiree plus spouse, retiree plus child(ren), and retiree plus family. LRWRA funded approximately 50% of the postretirement healthcare benefit costs. Employees hired after July 1, 2017 may elect retiree medical benefits upon retirement; however, they must pay 100% of premiums.

Actuarial Assumptions at December 31, 2023

Actuarial Cost Method: Entry Age Normal

Participation: Active members will elect the same retiree medical coverage as they elected with active.

Mortality: Pri-2012 Total Dataset Mortality with Improvement Scale MP-2021.

Discount Rate: 4.00% per annum. The plan is partially funded in an irrevocable trust maintained by the plan sponsor.

Inflation: 3.5% per annum.

Assumed Utilization: 85% of eligible future retirees are assumed to elect plan benefits.

Healthcare (HC) Cost Trend Rate: Covered medical expenses are assumed to increase by the following percentages:

<u>Year</u>	<u>HC Trend Rate</u>
2024	7.0%
2025	6.5%
2026	6.0%
2027	5.5%
2028	5.0%
2029 and later	4.5%

Membership Data: The membership data used in the calculation is based on data as of December 31, 2023. The information is summarized for primary members (not dependents).

<u>Status</u>	<u>Number</u>	<u>Average Age</u>	<u>Average Years of Service</u>
Active members (elected medical and employed prior to 7/1/2017)	119	48.6	16.9
Active members (elected medical and employed after 7/1/2017)	59	38.3	2.7
Retired members under Age 65 (elected benefits)	17	64.7	N/A

Employer-Paid Medical Premiums: The retiree medical plan is currently fully insured. Employer-paid monthly premiums are set yearly, with 2023 ranging from \$292 to \$1,156, depending on which healthcare plan selected and type of coverage (retiree only, retiree plus spouse, retiree plus child(ren), and retiree plus family. LRWRA funded approximately 50% of the postretirement healthcare benefit costs. Employees hired after July 1, 2017 may elect retiree medical benefits upon retirement; however, they must pay 100% of premiums.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

---

**Investment Policy and Long-Term Expected Rate of Return:** The plan's policy in regard to the allocation of invested assets is established by the LRWRC. The current asset allocation policy is 100% fixed income investments. The long-term expected rate of return on plan investments used is a proxy for annual long-term asset returns that are expected on high-quality AMT-free yields on municipal bonds with maturity in approximately 20 years. For the years ended December 31, 2024 and 2023, the annual money-weighted rate of return for the investments, net of investment expense, was 3.70% and 4.80%, respectfully.

**Discount Rate:** At December 31, 2024, a single discount rate of 4.28% was used to measure the OPEB liability. This single discount rate was based on the expected rate of return on pension plan investments of 4.28%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the net OPEB liability.

At December 31, 2023, a single discount rate of 4.00% was used to measure the total OPEB liability. This single discount rate was based on the expected rate of return on pension plan investments of 4.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the net OPEB liability.

## **Note 12: Payments to Central Arkansas Water**

The Utility pays Central Arkansas Water for billing and collection services provided by that entity. Such payments amounted to \$973,225 and \$938,3226 for the years ended December 31, 2024 and 2023, respectively, and are included as operating expenses in the accompanying statements of revenues, expenses, and changes in net position.

## **Note 13: Risk Management**

The Utility has purchased commercial insurance policies for various risks of loss related to torts, theft, damage or destruction of assets, errors or omissions, and natural disasters. Payments and premiums for the policies are recorded as expenses of the Utility. Insurance settlements did not exceed insurance coverage in 2024. In 2023, there was one insurance settlement that exceeded insurance coverage by \$18,869. The utility has elected to self-insure certain costs related to employee health programs.

## **Note 14: Fiduciary Funds**

### ***Deposits***

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The LRWRA Post Retiree Healthcare Plan's (Plan) deposit policy for custodial credit risk requires compliance with the provisions of state law.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

State law requires collateralization of all deposits with federal depository insurance; bonds, and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities or the state of Arkansas; bonds of any city, county, school district, or special road district of the state of Arkansas; bonds of any state; or a surety bond having an aggregate value at least equal to the amount of the deposits.

At December 31, 2024, none of the Plan's bank balances were exposed to custodial credit risk.

**Investments**

The Plan may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities and in bank repurchase agreements. It may also invest to a limited extent in corporate bonds and equity securities.

The Plan had the following investments and maturities\*:

December 31, 2024				
Investment Type	Fair Value	Less than 1 year	1–5 years	Credit Rating
<b>Cash Equivalents and Investments</b>				
Cash equivalents				
Federated treasury obligation	\$ 256,475	\$ 256,475	\$ -	AA+/Aaa
Investments				
U.S. government bonds	1,040,510	-	1,040,510	AA+/Aaa
	1,040,510	-	1,040,510	
Total Cash Equivalents and Investments	<u>\$ 1,296,985</u>	<u>\$ 256,475</u>	<u>\$ 1,040,510</u>	

December 31, 2023				
Investment Type	Fair Value	Less than 1 year	1–5 years	Credit Rating
<b>Cash Equivalents and Investments</b>				
Cash equivalents				
Federated treasury obligation	\$ 240,672	\$ 240,672	\$ -	AA+/Aaa
Investments				
U.S. government bonds	1,009,617	-	1,009,617	AA+/Aaa
	1,009,617	-	1,009,617	
	<u>\$ 1,250,289</u>	<u>\$ 240,672</u>	<u>\$ 1,009,617</u>	

\*Maturities are based on the scheduled maturity dates of the underlying investments. Investment types can be bought and sold on a daily basis.

**Investment Risk**

Due to the nature of the Plan, the interest rate risk, credit risk, custodial risk, and concentration of credit risk will vary for the participants depending on the investment options chosen by the participant.

**Little Rock Water Reclamation Authority**  
**Notes to the Financial Statements**  
**December 31, 2024 and 2023**

***Disclosures About Fair Value of Assets and Liabilities***

The following tables present the fair value measurements of assets recognized in the accompanying statements of fiduciary net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at:

	<b>Total Fair Value</b>	<b>Significant Other Observable Inputs (Level 2)</b>
<b>December 31, 2024</b>		
<b>Investments</b>		
U.S. government bonds	\$ 1,040,510	\$ 1,040,510
	<u>\$ 1,040,510</u>	<u>\$ 1,040,510</u>
	<b>Total Fair Value</b>	<b>Significant Other Observable Inputs (Level 2)</b>
<b>December 31, 2023</b>		
<b>Investments</b>		
U.S. government bonds	\$ 1,009,617	\$ 1,009,617
	<u>\$ 1,009,617</u>	<u>\$ 1,009,617</u>

***Investments***

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

## Statistical Data

LITTLE ROCK

**Water Reclamation  
Authority**

ONE WATER.  
ONE FUTURE.

## Statistical Section – Contents and Explanations (Unaudited)

This part of Little Rock Water Reclamation Authority's annual comprehensive financial report presents summary information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about Little Rock Water Reclamation Authority's overall financial health.

### A – Financial Trends Information

These schedules contain trend information to help the reader understand how LRWRA's financial performance and well-being have changed over time.

---

Net Position by Component, Last Ten Fiscal Years	87
Changes in Net Position	88
Operating Revenues by Source	89
Operating Expenses	90
Nonoperating Revenues and Expenses	91

---

### B – Revenue Capacity Information

These schedules contain information to help the reader assess LRWRA's primary revenue sources.

---

New Construction/Inspections Completed	92
Number of Sewer Customers by Type	93
Domestic Sewer Rates (Inside City)	94
Domestic Sewer Rates (Outside City)	95
Non-Domestic Sewer Rates (Inside City)	96
Non-Domestic Sewer Rates (Outside City)	97

---

### C – Debt Capacity Information

These schedules present information to help the reader in assessing the affordability of LRWRA's current levels of outstanding debt and its ability to issue additional debt in the future.

---

Ratios of Outstanding Debt by Type	98
Pledged-Revenue Coverage	99

---

---

**D – Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which LRWRA's financial activities take place.

---

Demographic and Economic Statistics, Last Ten Calendar Years	100
Ten Largest Sewer Customers, Current Year and Nine Years Ago	101
Principal Employers, Current Year and Nine Years Ago	102

---

**E – Operating Information**

These schedules contain information about LRWRA's operational activities.

---

Number of Employees by Identifiable Activity	103
Operating and Capital Indicators	104

**Little Rock Water Reclamation Authority**  
**Net Position by Component**  
**Schedule 1**  
**Last Ten Fiscal Years**

Notes: LRWRA's bond covenants stipulate that it may issue debt as long as certain conditions are met. The major criterion is that the net earnings of the system must be at least 1.2 times the year's average combined debt service requirement.

See "Notes to Financial Statements Section #6" – Long-Term Debt for more information.

(A) The yearly total amount includes only that portion of debt that has been borrowed up to year-end and not total loan amount on any non-completed project with which the loan is associated.

As part of each bond ordinance, LRWRA may treat any increase in rates for the System enacted subsequent to the first day of such preceding fiscal year as having been in effect during or throughout such fiscal year and may include in Gross Revenues for such fiscal year the amount that would have been received. In order to issue new debt, coverage shall not be less than 1.20 of the average annual principal and interest requirements on all outstanding System Bonds and the additional bonds proposed. The ordinance also states that in order to reduce rates, the average annual principal and interest requirement must meet a 1.30 coverage.

See "Notes to the Financial Statements Section #6 – Long-Term Debt" for more information.

(A) Includes interest on investment income.

(B) See Schedule 4.

(C) Amount contains construction draws only for 2024A and 2024B Revolving Loan Funds (RLF) at December 31. Amount also includes future interest payments on outstanding debt.
